Why America?

- America as a land mass is the richest country in the world. America has it all, natural resources, energy, minerals, soil, water, climate
- Problem: America is owned by **We the People**
- Every American citizen is sovereign with God given Rights:
 - Life/ Freedom -The individual owns their life and may do with it as they choose, Worship (morality) without state interference
 - Liberty-Equal Treatment under the Rule of Law US Bill of Rights and Constitution
 - Pursuit of Happiness-Equal Opportunity to create wealth. Land ownership is the biggest wealth creator. In America you own what is above and below your land. In America you can own your own business and your own person.

Private Property – Real or Intellectual is the basis of Power.

Simply put, you have it they want it.

The purpose of Agenda 21/2030 is to inventory and control every aspect of human activity.

Breaking America

Eliminate America in schools Pre K-College

Replace Constitution with Case Law eventually International Law

- Case Law creates classes (groups) **Unconstitutional**
- Classes are manipulated by *Social Justice** & *Wealth Redistribution*
- Social Justice grants privileges to one group at the expense of another
- Wealth Redistribution steals from the middle class and gives to the rich, done through regulation.
- Regulation through Regionalism-Non Govt agencies not elected officials – aka Soviets

Divide and Conquer ***A house divided will fall***

Social Justice, Racism, Income Inequality, Wealth Redistribution divide Americans

- Multiculturalism (Group culture) replaces **Melting Pot – Coming together as Americans**
- Consensus (Computer programs) replaces **Fact**
- Political correctness (Fear of offending) replace **Constructive Criticism**
- Doublespeak, Distortion, Lies (War is Peace) replace **Truth**
- Outcome based (Planned by Regime) replaces **Opportunity Based (individually created)**
- Manipulation (Repeat a lie often enough) replaces **Free Thought**

Sustainable Developments means development of society that meets the needs of the present society without compromising the needs of future society to meet their own needs. (*You may do nothing without government approval.*)
Gro Harlem Brundtland, 1987, friend of Hillary Clinton

Consensus of the Precautionary Principal used to restrict through regulation

Taking action without scientific certainty to save future generations from scarcity of resources- Catch shares, oil, water, coal, food, global warming

Implementation and monitoring through TECHNOLOGY/Digitalizing/Cameras
Everything must be watched, shared, monitored for usage.

You will be monitored for you consumption patterns and if you use too much you will be shut off.

Over the past 35 years, wind energy—which supplies just 2 percent of U.S. electricity—has received [\\$30 billion](#) in federal subsidies and [grants](#). These subsidies shield people from the uncomfortable truth of just how much wind power actually costs and transfer money from average taxpayers to wealthy wind farm owners, many of which are units of foreign companies.

Fundamental premise is a lie. CO2 is an inert gas that is only .03% of the atmosphere. Necessary for plant life – aka food. CO2 is a result of warming.

"This is the first time in the history of mankind that we are setting ourselves the task of intentionally, within a defined period of time, to change the economic development model that has been reigning for the, at least, 150 years, since the industrial revolution," UN VP Climate Initiative, Christina Figueres said.

While You Were Sleeping

Education became Propaganda

1994, Rescue Mission Planet Earth,

a Children's edition of Agenda 21 targeted our children many are in government today... What did they learn?

- **P24:** Polluters should pay for the damage they cause, those using cleaner methods should be rewarded (they decide the polluters and give subsidies). **Bye Light bulb, cheap energy, private property**
- **P60:** The military wastes the environment according to Worldwatch Institute, the military is the single biggest polluter on earth. **Defund, restrict the military**
- **P73:** Funds could be raised by reallocating resources now committed to the military. **Sequester.**

How will it work?

Technology will control everything-STEM
