

Statement to Board of Commissioners:

Good Evening,

My name is _____, my address is _____, City _____, Florida. The Clerk has been given a copy of this statement to go on record. All of the _____ County Commissioners and Clerk have been given documents from the American Bar Association. You as elected _____ County Commissioners have said that your Comprehensive Plan, which is sustainable development, is not the United Nations Agenda 21. The American Bar Association disagrees with you as they have committed to the 1992 Rio Convention on the United Nations sustainable development Agenda 21, and in 2003 with their house of delegates, and reaffirmed their commitment in 2012 at the Rio+20 Convention to sustainable development aka Agenda 21.

The American Bar Association is the largest treasonous organization in the country; committing Treason against the United States Government, the United States Constitution, and the Sovereign People of this country, by destroying their liberty, property rights, and indoctrinating the children with a communist education.

Now all of you are committing the same Treason with your memberships and connections with all the organizations, NGO's, and PPP's that use the United Nations Programs to promote the United Nations sustainable development a/k/a Agenda 21. This goes against many amendments in the U.S. Constitution.

You are hereby being put on notice of your unconstitutional and criminal reign, and your Oath of Office that you have broken.

I am here tonight requesting that you stop your Act of Treason.

Thank you.
