Some of the issues in this letter are repetitive. That is for a reason, it takes the average person 10 times to see something before they pay attention. It is also important for you to understand that

- everything is connected
- everything happens for a reason
- nothing is random
- everything is planned
- EVERYTHING IS A LIE

This is a newspaper, and should be read one section at a time. After each section take a breath, let it sink in, then think what is the opposite. Equate every regulation to Money, Power and Control.

**Hello Americans:**

Lies, Lies and more Lies, the Obama administration is unraveling before our eyes. How can anyone trust anything that comes out of their mouths? Watch Obama go after the IRS so you will not pay attention, that is the game. Deflect. If we do not keep up the pressure congress will fail. Now is the time, it is up to, "We The People." all Congress relentlessly. If we want to get rid of this corrupt America hating regime, Call, Call, Call your Representative and Darrel Issa. The will tell you we can not do anything because of the Senate. Well start. Then we will have a great reason to elect a senator

demanding impeachment.

Now let's connect a few dots. Lying is a behavior now acceptable throughout government and business. But where does acceptance of lying become acceptable?

Common Core type education is called for in Agenda 21 Chapter 25. This Federal mandate promotes one size fits all training now called education to benefit the businesses favored by government. The focus is on training to work whereby students are tracked early on and selected for certain favored jobs in the future. This outcome based education breeds lying. The answer is known in the beginning so the method and procedure is often tainted - made up - lies so that the answer will come out as described. Facts are no longer relevant. So if we have been teaching our kids to lie in school, why are we surprised they grow up to be liars?

The CCS training itself is made up of lies using anti-American, anti family, and anti God focusing on the bad not good. The purposes is to create a world citizen with allegiance to no nation only to a government/business who is in charge of the region in which they live. This NWO with its unaccountable NGO's will regulate Americans with more lies.

Where do the lies come from? While the idea of CCS is bad, the real problem is the content of the materials the students read. Do you ever check what your family reads? Too many of us do not pay attention. Therefore the content of many school materials are unnoticed although they are written by EU socialists with a Muslim Bias. I personally believe that the Muslims (Saudi's) own shares of many textbook companies. Below are a few of lies promoted in school that are instilled in your children at their government school:

- Communism is held in the most favorable light while the true history of communism is ignored.
- Capitalism is touted as selfish while the facts and history are ignored.
- Children learn in clusters and are only as good as their group while individualism is shunned.
- Cursive is out - eliminates individualism and the ability to read many of our founding documents.
- American history is taught from 1865 - the reconstruction or progressive era.
- The National Data base collecting about 400 data fields of an intrusive data base has no cost attached.

Basically CCS is an unconstitutional, unproved fad that will benefit the providers (Gates, Bush, Kipp, Broad, Pearson and businesses no longer needing to "train" their workers) as the responsibility of worker training is shifted from the business to we the taxpayer.

CCS is consensus not fact (truth) based, so where do kids learn facts?

They don't. Instead students are taught values of communists, progressives and extreme environmentalists and we are surprised that they grow up become legislators and lie.

As bad as lying is, the acceptance of the lies is worse. Policy is made surrounding lies. To make matters worse, Common Core Standards (CCS) outcome-based education uses the Skinner/Pavlov stimulus-response method of indoctrination. This method takes away the individual's ability to think as the responses are largely emotional. Stimulating only the emotional part of the brain eliminates the person's ability to use logic, reason and cognitive thinking in problem solving. Therefore the person is forced to rely on choices provided by the government which we now know are lies. The government nudges the person into the acceptable response creating a society of bobble heads only capable of saying, "yes master". These "choices" become subliminal messages that the media uses to promote ideas and issues while eliciting desired responses from the people.

As the silent majority follows directions by not talking about politics and religion, being politically correct, we continue to perpetuate the lies. Will you stand up, will you stop accepting the lies?

Will you demand impeachment?

I will not comply. Will you?

THE CLIMATE IS COOLING:

### **Global Cooling Era to Bring Food Shortages and Social Upheaval Says New Climate Report Thurs., April, 25, 2013**

Release 3-2013

2:00 PM EST The inaugural edition of the recently published Global Climate Status Report (GCSR)© by the Space and Science Research Center, headquartered in Orlando, Florida, discloses startling new information about global food shortages and widespread social upheaval in the world's corner; all the cause of the new global cooling era. This single source document from the SSRC details an apolitical, fact-based veridical climate status as measured by twenty four climate parameters.

The summary conclusion of the report shows that the planet is heading into four decades of potentially dangerous, cold weather. M. J. Griffin, founder, Editor of the GCSR, and author of the internationally acclaimed climate book, "Cold Sun" was recently named "America's climate prediction expert" by Watchdogwire.com. He elaborates on the stunning conclusions of the GCSR by saying, "The news isn't good, but we still believe in manmade global warming and that mankind's CO2 emissions have a major role in climate change. They will be total proof of a new cold era.

Scientists around the world have compiled and is discussed in our global climate report for all to read." [Read the full report](http://www.spaceandscience.net/id16.html)

## Property Rights

When going to a planning meeting learn by past mistakes remember:

1. Sustainable Developments (SD) are not proven to do anything except cost money by reducing taxable buildable land. Make them the black.
2. Be overly expensive with products that do not work and only benefit friends of the govt eliminating competition.
3. Every SD builds a democratic base. Look at your voter map.
4. People not from your area will determine what people from you area should do.
5. Restricting consumption means restricting your consumption not theirs.
8. Regionalism eliminates local county govt and private property. Once you start taking grants you will not be able to breathe with FEDS.

Contact Rosa Koire and HELP as they are suing the Feds for destroying SF Bay area.

### OUR DONATION SITE

<http://www.qofundme.com/2w8d08>

We need your help on something very important. We're working on a legal challenge to the huge 9 county plan here in the San Francisco Bay: [One Bay Area](#). This regional plan is different from the others in the U it's a prototype for forced implementation of UN Agenda 21's 'Islands of Human Habitation'.

Plan Bay Area/One Bay Area includes Priority Development Areas (see attached map) that are targeted to contain residential and 66% of the commercial development over the next 25 years. This is extremely important because the 5th and the 14th amendments (takings/due process/just compensation, and equal protection) and will restrict more than 4% of the land area in the SF Bay Area. These PDAs are within Urban Growth Boundaries but create new boundaries because people who own property within the UGBs will not be able to develop unless (presumably) 80% increase has already been accommodated within the PDAs.

This is an incredible overreach on the part of the state and federal government. The plan does not address how the development will be chosen for approval. Cities have asked the Metropolitan Planning Organization this question and it is ignored. **This plan impacts thousands of acres of land and millions of property owners for 27 years--a generation of restrictions and denials for development.** The final draft plan has been released and we have 55 days to enter the administrative record in preparation for filing a lawsuit before the filing period has elapsed.

**If this plan moves forward unchallenged and is not stopped it will set a precedent in the United States.** My Freedom Advocates and I have hired a constitutional law firm to write the objections to go into the legal administrative record. The 55 day comment period ends on May 16 we will have our comments in. Then we'll have only 60 days to file the lawsuit. I believe that this suit will be the suit of the century. This will be a major challenge to UN Agenda 21 / Regionalization.

**We need your help fundraising for this.** The Post Sustainability Institute is a 501 c4 (donations are not tax deductible) and we are collecting the funds. One hundred percent of the funds will go for this lawsuit. Michael and I have committed thousands of dollars to the fight. Can your group commit to assist with funds or press coverage? We can offer you website space, honorarium, recognition, and the gratitude of the nation. **The most important thing is the knowledge that when it came down to the opportunity to strike a killing blow to the collapse of private property rights in America, you were there with your hand.**

Can you help? To get more information and to make a donation? Let me know if I can answer questions for you or if you need me. You, Rosa: rk@postsustainabilityinstitute.org

For those of you who reside elsewhere - the same sort of crap is brewing in your very own state and county, and you too will feel the long. Many of you have already experienced it in one form or another, many more know of friends whose lives have been altered by this crap. Read and beware! And above all keep in mind that this stuff is being done behind closed doors, without public knowledge, less vote and/or approval. Case in point - the horrendous PORTLAND PLAN, created by idiot mayor and his clown commissioners - 10 years - not one aspect of it was ever subjected to public opinion, and this plan determines precisely what Portland will do/be/become in 20 years !!!! It screams A21 from beginning to end.

and within this link is the beginning framework from 1993, one year after the UN program was signed on to - this plan being the way while the commission is no longer around, the actions during those years managed to get A21 into every government agency and department remained (and grown). This information (above and below) is straight from the horses mouth - not speculation, not my opinion, no fact, and at that, it does not spell out precisely what has transpired in recent years resulting from A21 - to people in CA, OR, WA, goes on and on.

Obama and all those on the Left and the Right that have helped to forge the immigration bill have intentionally dece 'cooked the books' on immigration. La Raza is now running ICE and the Latino Marxists are imbedded in the White House.

This immigration bill is to America's sovereignty what Obamacare is to our health care system - national suicide at high speed. A stripping of the border to create nothing less than the b continent that the *people* of the U.S., Canada and yes, Mexico, do not want. ## ***Communication Is Key...***

Create your own media. There is only one way to take back America and that is with the truth, education, communication and what can you do?

Columbia, MO, March 7, 2013 - "Who controls our media?" Speculation abounds as, clearly, our population knows the media cannot. Polls reveal the distaste our population has for the mainstream media. Yet, who does control our information? Peddling Influence, independent filmmakers William Lewis and Gary Franchi, exposes this as it answers such age-old questions as: Do we really have freedom? <http://williamlewisfilms.com/rtr.html>

Go to [americanpatriotnews.us](http://americanpatriotnews.us)

Use the front page and name, become the American Patriot news of \_\_your county\_\_

To make it easier, the front page and cover is federal, just add your state and local info on the back. Work together with others and local. United we win.

This is a perfect project for your group and youth in your community. Imagine if your community was informed when Agenda 21 occurred, when commissioners made decisions prompted by Regional Councils, NGO's and Non profit conservation groups. If they will read it. Too many people are hungry for truth, you can provide it.

The youth can become the reporters, learn graphics, get distribution. Ask them what they want to read...You will wind up teaching the truth and they will learn to read.

Warren Buffett is busy buying local newspapers, Does he own your county yet? or will you?
