Some of the issues in this letter are repetitive. That is for a reason, it takes the average person 10 times to see something before they pay attention. It is also important for you to understand that

- everything is connected
- everything happens for a reason
- nothing is random
- everything is planned
- EVERYTHING IS A LIE

This is a newspaper, and should be read one section at a time. After each section take a breath, let it sink in, then think what is the opposite. Equate every regulation to Money, Power and Control.

Hello Americans:

Common Core Standards =New World Order" for America

The Crisis has been created, perhaps you heard:

American education is a disaster. Scores are awful, America is slipping. Students are not ready to work. More money is needed. Standards are high enough. Look at the other countries.

Find Someone to Blame:

- Teachers
- Class size
- Lengthen school day, school year
- Not the right food
- More social programs
- Increase school responsibility
- Diminish parental responsibility
- Choice
- NOT ENOUGH MONEY

In the 1960's college students were coerced into teaching. The teaching profession was the draft exempt job created to avoid the Vietnam War. Gramsci, Skinner were the authors of educational policy Dewey used to create "Modern Education." Unsuspecting college students were forced to participate in experimental learning concepts based on the psychological manipulation Dewey loved. All of these programs have failed and the unsuspecting students suffered as the purpose of education was changed from reading, writing, arithmetic to feel good social programs rooted in the Freudian, socialist, Marxist mentors of Dewey.

There is a concerted effort to dumb the kids according to, Charlotte Thompson Iserbyt, Senior Policy Analyst, in the Reagan Administration, where she discovered the Eisenhower commission of governors, sent to the Soviet Union in the late 1950's to study Soviet education. They came back with an amazing discovery. Changing the mind set from freedom to subservience is easy if done in school where kids should be trained to work. Dumb people will have less demands on the government. Read her book, *Deliberate Dumbing Down*, visit her web site deliberatedumbingdown.com.

"We are on the verge of a global transformation. All we need is the right major crisis..." - David Rockefeller, Club of Rome executive member. So with the help of the Rockefeller foundation, the environment was chosen as the crisis. After all, we all want to save the planet and will sacrifice anything to make that happen.

"A massive campaign must be launched to de-develop the United States. De-development means bringing our economic system into line with the realities of ecology and the world resource situation." - Paul Ehrlich, Professor of Population Studies

What better place to start than the schools? Mold those young minds with lies about man made global warming sit back and watch the kids grow up and beat up their parents, friends and family for destroying the planet. Teach them lying is OK as the "ends justify the means." Then get them in office and watch them legislate rules and regulations that will destroy America and capitalism in the name of saving the planet.

1989 Governor Association on Education - Shirley McCune from the McRel Foundation, under, Gov Bill Clinton, Pres Bush 41, changed education in America forever stating:

- Students are HUMAN CAPITAL Education's purpose is to train students to work.
- Purpose of Education was to Transform Society from individualism to collectivism
- Fact Based Education is not longer the primary focus of education

The roots of communism began to sprout.

All education programs were to be changed every 4 years according to Education Code. The Federal Government was not supposed to be involved in Education. Education was parental, local and state led until ...

Using grants and lots of money as prizes, the Federal Govt devised programs and schemes to force local governments into unconstitutional communist school programs. These programs made millionaires out of business benefiting from the Federal mandates. Gates, Bush, Achieve, Kipp, Pearson, Saudis anyone working in new government sanctioned programs benefited as the kids got dumber and parents were asked for more money.

School to Work = Goals2000 = Sustainable America = NCLB = Common Core. All programs were created from the same Marxist concept denouncing capitalism favoring collectivism. Students

were taught to blame America, God and family and replace them with school and government. Today 87% of the graduates think it is the job of government to take care of them. Today responsibility and consequences, logic, reason, cognitive thinking, order, priority, destiny and excellence are replaced by choices selected by the government. The government has all the answers. History has been altered and school is nothing more than a communist propoganda machine demonizing any dissenter. Race To The Top (RTTT) was a perfect diversion for the total take over of American education by the communists running the DOE. Financially strapped state Governors closed their eyes to the fine print in the grant and signed onto Common Core standards and a 400 field of intrusive personal survey question now housed in a National Data Base with cost unknown.

Common Core is the latest inferior education fad that will dumb the kids further as we the taxpayer will now pay for industry training to work not education for life. In 12 years you will not recognize our children, or America. STOP COMMON CORE and the other communist educational programs currently in our schools and return to an American education like we once had which made America the greatest country in the world. What can you do? Say no to grants and take responsibility for the education in your community. Better yet, whenever possible homeschool.

Like I said, I hope you have food and protection. This will get ugly. Thank you RINOS for helping the Marxists and Muslims stay in office for many years to come.

Karen Schoen, AgEnder
I WILL NOT COMPLY, will you?

THE CLIMATE IS COOLING:

Global Cooling Era to Bring Food Shortages and Social Upheaval Says New Climate Report Thurs., April, 25, 2013

Press Release 3-2013

2:00 PM EST The inaugural edition of the recently published Global Climate Status Report (GCSR)© by the Space and Science Research Corporation (SSRC), headquartered in Orlando, Florida, discloses startling new information about global food shortages and widespread social upheaval that is just around the corner; all the cause of the new global cooling era. This single source document from the SSRC details an apolitical, fact-based version of the Earth's climate status as measured by twenty four climate parameters.

The summary conclusion of the report shows that the planet is heading into four decades of potentially dangerous, cold weather. Mr. John L. Casey, SSRC founder, Editor of the GCSR, and author of the internationally acclaimed climate book, "Cold Sun" was recently named "America's best climate prediction expert" by Watchdogwire.com. He elaborates on the stunning conclusions of the GCSR by saying, "The news isn't good, especially for those who still believe in manmade global warming and that mankind's CO2 emissions have a major role in climate change. They will be totally unprepared for this new cold era.

Though we had issued a press release in February to announce the climate report, the specific findings from the full report and their implications for everyone on the planet are still largely unreported by the media and unknown to our leaders. It is certainly still surprising that what is likely one of the most important news stories for the next fifty years is completely ignored by the mainstream media, including most science periodicals. For these reasons, I want to be very clear about what this report is saying. Here in the United States, we face the real prospect of major crop damage and food shortages as we get closer to the bottom of the next cold era estimated to be 2031. We should fully expect to see substantial crop losses during the 2020's along with accompanying food riots, and social unrest, especially in every major US city. That means we may have seven years, and likely less, to set aside the food we will need or make adjustments to our national food production and consumption practices in order to get through the global cooling onslaught with minimal damage.

This situation will be made much worse because the current administration of President Obama has its head in the sand on this global threat and unbelievably is still telling the world that the Earth is warming because of man's industrial greenhouse gas emissions. Nothing could be further from the truth according to the overwhelming evidence that climatologists and solar physicists around the world have compiled and is discussed in our global climate report for all to read."

Bombing Shows Immigration Flaws

By: Rep. Louie Gohmert (TX-01), [USA Today](#)

The terrorist bombing in Boston offers a glimpse of our immigration system's serious failure. While failing to address massive risks to our security, proposed immigration changes actually exacerbate them.

Inadequately secured borders and defectively monitored visas currently overwhelm our immigration system. Granting immediate legal status to the alleged 11 million illegally here would cripple our dysfunctional system.

One very significant new development is the *International Consortium of Investigative Journalists*, or ICIJ. This is a combined group of 38 different media companies – involving 86 journalists from 46 different countries – all working together for the first time.

This includes top media networks in the UK, the US, France, Germany and Canada. It is very telling that their own networks haven't reported much about their work yet – if anything. Nonetheless, the alliance is very real – and there is a ton of material to read on their website, www.icij.org.

They have hacked into over 2.5 million secret files – and are systematically identifying each and every secret haven where the Cabal has been hiding the money it is stealing from the people. This includes shadowy “off-ledger” accounts that were based on stealing from the Global Collateral Accounts, as we have reported in *Financial Tyranny*.

National Defense

Barack Obama is called a pure Communist by the Russian Press and many in Russia are making that statement. Maybe that is why the Boston Bombers could get away with what they did. It seems that Russia knew that the older brother was one to watch and they informed our intelligence community of it, yet the FBI once again failed because they "did not want to inflame people with Jihad connections or ideology!" Obama has declared that the United States will not "attack" those who hate the United States and instead, Obama wants to try to appease the situation in the terrorists' favor. One individual, a man named Xavier Lerma, who wrote many articles about Obama and what he has done, along with calling the people of the United States stupid and ignorant for putting him in office has openly called Obama a communist! His article, "Obama's Soviet Mistake," discusses why what Obama is doing now has been done before in Russia and it failed.

OBAMACARE

The Ten Real Purposes of Obamacare

by John Knapp

House Speaker John Boehner has had more than two years to defund Obamacare, and he hasn't raised a little finger toward doing that. And he won't. The purpose of Obamacare is not, and never was, more efficient and affordable medical care. Here are the ten purposes of Obamacare, in descending order of importance :

1) To achieve more power over the people, toward eventual total control. When you have to go to government for your health care, government has you by the short hairs, and your freedom has gone away.

- 2) To further grow the federal government, by making more people dependent upon it, in order to create more democrats, in order to transfer total federal authority, mooting forever the Constitutional relief valves that are the 9th and 10th Amendments.
 - 3) To cut down on government medical disbursements for older Americans (death panels), thereby improving government balance sheets.
 - 4) To reduce Social Security payouts, by reducing life expectancies via death panels, thereby improving government balance sheets further.
 - 5) To try to get disheveled government books re-organized, so the public never knows the shambles this government's books are in; and, hopefully, to improve government balance sheets even further.
 - 6) To punish the medical profession for 'making too much money', and to curtail medical professionals' incomes, in order to punish that particular segment of the hated 'rich'.
 - 7) To run all health insurance companies out of business, in order to punish them for making too much money.
 - 8) To further hinder small businesses with oppressive regulations.
 - 9) For purposes of 'social justice', only not to redistribute the wealth, but to redistribute misery.
 - 10) For Obama to make his indelible mark on American history, on the 'unfairness' that has always been America.
- John Knapp April 28, 2013

Michigan Pulling Away from Common Core

By Rachel Sheffield

Michigan legislators are working to put the brakes on Common Core and restore authority over what is taught in Michigan classrooms to state policymakers, local school leaders, and most importantly teachers and parents.

As the *Washington Times* reports, "The state House on Wednesday passed an amendment, attached to the Education Department budget, that prohibits any funding for the controversial Common Core system."

Although the Michigan Department of Education adopted Common Core in 2010, the legislature did not approve it. State Representative Tom McMillin (R), who sponsored the measure, says the authority to change standards belongs to the legislature, not the board of education.

The citizens of Florida and their elected representatives on county school boards and in the legislature should consider carefully before spending hundreds of millions, if not billions of dollars more and irreversibly changing the state's education system with enormous impact on our children's future, freedom, the economic health of the state, parental and teacher autonomy and data privacy."
