This is a newspaper, and should be read one section at a time. After each section take a breath, let it sink in, then think what is the opposite. Equate every regulation to Money, Power and Control.

Congratulations to all AgEnders. We are NUMBER 1.

Southern Poverty Law Center has agenda21 today as number 1 in Florida to be aware of, as an anti-government organization alerting the people to the lies. (actually they said we were tin foil hat people.) Shady Grove #2 is the American Patriot News. Do you have one in your county? We are so proud of all of us. Pat yourself on the back. Keep up the great work we are getting noticed.

Hello Americans:

Common Core IS NOT NEW. The only thing new is the name and the fact that no parent or community or school board of legislator had any participation in this new unproven educational fad.

What is Common Core? Think of Common Core as an operating system provided by the Federal Govt. This Federal voluntary mandate provided in stealth as part of Race to the Top contains ...

1. No community or parental participation
2. One size shoe fits all training
3. No proven test model
4. Intrusive Data mining with unknown costs
5. Replaces literature texts with technology manuals
6. At what cost to the district?

Although these items are dangerous, they are merely diversions to the real danger: Content and method of learning. As a former educator, I was trained in Dewey's, "modern education" whose sole purpose was to train students while dumbing them down. I watched while American history changed before my eyes. I know these have been overlooked for decades.

1. The content of the material - Unfortunately relatively few look at the content. If people

ENVIRONMENTAL TERRORISM

Mingo Logan Coal Company received a Clean Water Act permit from the U.S. Army Corps of Engineers to discharge dredged or fill material from a mountain top coal mine in West Virginia into three streams. Four years later, the U.S. Environmental Protection Agency overturned the permit, saying it was no longer valid based on "new information" about the impact of the discharge on "downstream water quality."

UN Agenda 21 is sustainable development right off the UN web site. At the 1992 Earth Summit, the international community adopted Agenda 21, an unprecedented global plan of action for sustainable development. Ten years later, the Johannesburg Summit presented an exciting opportunity for the leaders of the day to adopt concrete steps and identify quantifiable targets for better implementing Agenda 21.

IT'S THE FILM THAT COULD KILL THE IMMIGRATION BILL but you can't see it in a theater because Hollywood and the mainstream media reject films made by Dennis Michael Lynch. THEY COME TO AMERICA II, The Cost of Amnesty is the most action-packed, truth revealing, in your face documentary ever to be made about illegal immigration. With Congressman Peter King, Mayor Rudy Giuliani and AZ Attorney General Terry Goddard, the film provides the best argument for rejecting the current immigration bill.

ECONOMIC TERRORISM

Monopolies eliminate competition. Monopolies are not Free Market. Creating monopolies is one way to redistribute wealth. Is that the Bill Gates way? Cisco Systems, the world's leading network equipment maker, asked an EU court on Wednesday to annul the approval of Microsoft's purchase of Skype, saying EU regulators were wrong to allow the creation of a monopoly.

EDUCATION

WSJ: Common Core Education Is Uncommonly Inadequate
Common Core recycles a decades-old, top-down approach to education. Its roots are in a letter sent to Hillary Clinton by Marc Tucker, president of the National Center on Education and the Economy, after Bill Clinton's presidential victory in 1992. The letter laid out a plan "to remold the entire American system" into a centralized one run by "a system of labor-market boards at the local, state and federal levels" where curriculum and "job matching" will be handled by government functionaries.

UT: This comment is a perfect example of the article I just wrote above.

Comment:

Before anyone misunderstands my position I do want to state that I do want my kids in school and I want them to graduate and be successful. That being said, I am a mother of 3, which 2 of them are still in school. For the past year we have been facing the courts because of truancy. It started because my children struggle with seasonal depression and had some absences and tardiness. Instead of working with my kids they get teachers, school administration, state agencies, court representatives, etc... to publicly humiliate them on a constant basis, telling them what they are doing wrong, never what they are doing right. My children face ridicule from missing school, not only from the teachers and staff but because the teachers say all of these remarks in front of other students, it gets doubled. I don't want my kids to have a significant amount of absences or tardiness but I can see why they don't want to go to school anymore. So what are the courts and schools doing to now to help?

Well, we have court-ordered therapy, pill management, mandatory bedtime, mandatory weekly family workshop, besides all of the other hoops we have to jump through to make sure none of us get thrown in jail. On more than one occasion my freedom has been threatened if I did not do all that was ordered of me. I HAVE to work full time and I am also in jeopardy of losing my job and the people who are implementing this on my family seem to have no sympathy. I also was trying to re-activate my kids in church by having family home evening with the missionaries, but they (the courts, etc...) wouldn't hear of it. My kids do have a few things that make it difficult to be in a classroom and all the people involved know this. In my opinion, they will have more success if they work with my children and have compassion on their situation. The answer to helping our family is NOT found in a textbook, it is in the kindness fairness that used to exist in the schools not too long ago. All they had to do is talk to my kids like they were human and show that they cared.

Would anyone who had to face this want to go to school? It isn't just the students who bully students, it is also those who are supposed to be in charge. My intention is not to condemn but to inform. I'm posting this in hopes that someone who can make a change, will. Please, don't just read...LISTEN! Thank you www.UtahnsAgainstCommonCore.com

Much of Hillary Rodham's support comes from ignorant women who have no facts other than the carefully polished image built to portray Comrade Clinton as a friend of women. By championing murdering unborn babies using clever propaganda like "protecting women's reproductive rights", Comrade Clinton is lauded by women who kill their unborn babies as some sort hero. By championing the filth of sodomy and promoting AIDS/HIV by supporting sexual deviants, Comrade Clinton assured herself a nice fat bankroll for her run for the senate and president.
