Transforming America

While you were busy legislating...

we decided to have an Agenda 21 Conference. This is an educational conference to stop the UN from undermining and dismantling our great state and nation. This invitation is going to you, our FL Legislators, your constituents prefer you to be up to speed on Federal Grants and programs that will be coming your way.. Please attend our Agenda 21 Conference, June 11, 2011

We are aware our Florida Legislators passed a resolution SR 2216,

[Agenda21Enders Conference](#)

You are invited to the first [Agenda21 Conference](#), June 11 in Lakeland Florida. Invite your Legislator.

Learn about Agenda 21. Recognize the signs in your local communities as soon as ICLEI or zoning, planning, grants and water management rear their ugly heads.

Call to Action

Lower energy costs and

recognizing the visionary leadership of Education Commissioner Eric Smith.

This resolution is stunning
Commissioner Eric Smith Condone the distribution of Pro Islamic Textbooks in Florida Schools; the text book company is owned by an Arab Family. Look up Houghton Mifflin Harcourt.

While Education Commissioner Eric Smith was in office Billions of tax dollars were spent on Florida education but, Florida education for the past 15 years has flat lined. So what exactly did he do to fix it? Our Florida high schools are essentially over glorified drop out factories. Florida is graduating students with substandard skills. Graduates attending College often need remedial education. Can you say dumb down?

Further more there is an expensive IB program in place, which produces insignificant scholastic results. Its real purpose is to turn American students into good global citizens. Its Anti-American curriculum teaches the UN Charter and not the Bill of Rights or any American nationalism.

Is this visionary leadership that our Florida High School history lessons starts in **1865**? Or that our Founding Fathers have been eradicated? Or vilified? Our Florida students are being taught Corporations and Capitalism is bad, Family and God is bad; only the UN is good.

The Agenda 21 Team is creating an information packages that WE THE

dismantling our Florida school systems? How about Race to the Top? RTTT is essentially a anti America power grab program which ultimately transfers Florida education over to the Federal government forcing the sub standard, overly expensive anti-American Common Core Standards on states. Feds create a national data base to chart the growth and work capacity of your children and grandchildren. There is more, students are taught:

- Humans are the enemy of the earth
- Children know more than Parents
- Individual liberty and property rights, must take a back seat for the good of the collective.

How many billions will that indoctrination cost the Florida taxpayer? RTTT is an unfunded mandate violating the US Education Code.

Five Radical Islamic Charter Schools (owned by the most dangerous man in the world according to the FBI in Florida) are being funded by FLORIDA TAXPAYERS. Is anyone in the FLDOE paying attention? Where exactly was Dr. Smith? [See Them](#)

Florida textbooks will now be purchased by a team of "experts" chosen by the new FLDOE Commissioner. What if Gov Scott picks another globalist? Students (people) who can't

PEOPLE can take to any legislator, mayor, commissioner to expose this UN take over of our State and Country. This professional package will go out for all to see and use in your state or community.

SPECIAL NOTICE

Join us on Repatriotradio.com and listen to discussions of the overreach of Agenda 21 as we get nudged out of our country by the UN Elite. Did you vote for those people? They why are they running our Government? Communist Obama appointed Czars perhaps?

read, are nothing more than slaves. Students who are taught to be anti-American grow up to be Anti-American.

COME to the Conference, June 11.

ICLEI has infiltrated Florida

ICLEI, a UN affiliated NGO, funded by US taxpayers is now going after Mayors to join their sustainable development push. Their goal is to get Florida under UN guidelines. 90% of Florida to be owned or controlled by NGO's and other UN agencies. This is done by promoting sustainable development to unsuspecting local authorities. They achieve goals by using phony data for land grabs using The Wildlands projects or Endangered Species Act. (the endangered Florida Panther and Bridge to Nowhere comes to mind.)

ICLEI.org

Then look at the [applications of ICLEI](#) How many Florida cities are already involved. Harvey Ruvin, Miami-Dade Clerk of Courts also an ICLEI member, stated, "Individual rights will just have to take a back seat for the good of the collective." The land that has been taken off the tax roles is staggering.

Agencies use phony data to shut down industries in Florida

The phony science used by agencies DOE, DOED, FDA, EPA, NOAA, ICLEI, UN have severely injured the: agriculture, fishing, lumber, light bulb manufacturing, fuel, energy, water industries and education.

Please attend the Agenda21

Just when you thought the Law of the Sea Treaty was DEAD. Think again. Another executive order created the [World Ocean Council](#) designed to give the sovereignty of our oceans and waterways to the UN and to charge Americans a special tax so we can give the UN the money to implement its take over.

The WOC will become an non-profit non-governmental organization registered in the US and the UK in 2009 e.g., NGO workshops on MPAs, the annual UN Law of the Sea consultative meetings, to broker improved interaction and meaningful progress in addressing marine environment issues. Didn't Americans say NO to the Law of the Sea????? For a **Change**, Obama bypassed Congress.

Support Israel

A SAFER ISRAEL IS A SAFER WORLD!! Israel needs the support of the American people now more than ever. Take a stand today and sign the petition to tell Barack Obama: Don't betray

Conference and learn the facts about how these agencies will continue to dismantle Florida.

Its time to put these agencies into the control of the states and let the people determine their own destiny.

What does Governor Scott think?

Read an interview that Scott gave Matt Bruce, host of the Sarasota radio program, The Captain's America.

It was a fairly routine question and answer session between Scott and Bruce when Bruce asked this question: A lot of people are concerned about this UN Agenda 21, sustainable development. They don't understand it, lots of people don't even know what it is. We do have it in Sarasota County, with what is called the 2050 plan. It is spotty to say the least around Florida. What do you know about this sir?

Without missing a beat, Scott replied: I know it's not good for Florida and so I'm going to make sure we're not giving someone else the power to figure out our destiny. I'm focused on our rights as an individual state. I don't believe the federal government should be telling us what to do and clearly the UN should not be dictating how we build our state.

KNOWLEDGE IS POWER!

We are here to help. But we need your help as well. This is a team effort. The fastest way to stop Agenda 21 and the TRANSFORMATION of America is through education and communication. That costs money and [we need your donations.](#) Our goal is to stream the conference so our friends all over Florida and in other states can participate. Teamwork is the only way to stop Divide and Conquer. You are not alone. Our goal is to create a support network with all of the tools you will need to fight this power grab of your FREEDOMS and LAND.

[DONATE NOW!!](#) United We Stand.
