Some of the issues in this letter are repetitive. That is for a reason, it takes the average person 10 times to see something before they pay attention. It is also important for you to understand that

- everything is connected
- everything happens for a reason
- nothing is random
- everything is planned
- EVERYTHING IS A LIE

This is a newspaper, and should be read one section at a time. After each section take a breath, let it sink in, then think what is the opposite. Equate every regulation to Money, Power and Control.

### Congratulations to all AgEnders. We are NUMBER 1.

Southern Poverty Law Center has agenda21today as number 1 in Florida to be aware of, as an anti-government organization alerting the people to the lies. (actually they said we were tin foil hat people.)

Shady Grove #2 is the American Patriot News. Do you have one in your county?

### Hello Americans:

As a child I loved to sit with my father and watch the old movies on Memorial Day. Although Dad was not a Vet his brother, my uncle was. My uncle's job was to liberate Auschwitz. The stories he told me are burned in my brain. The horrors he saw that people did to each other when morality is gone from society can never be forgotten.

One of the things I remember when seeing old movies about World War II, were the amount of Germans soldiers who said, "I know nothing, I was just following orders..." The Nuremberg trials has testimony after testimony of, "I was just following orders." The one thing stuck in my head was the lack of responsibility that people took for their actions. I will never forget which is why I always look at the politicians actions not words.

After watching this administration, their testimony and press conferences I began to feel like I had just flipped the station and landed on a WWII set. No one in this administration knows anything.

- Obama didn't know anything
- Clinton didn't know anything

Exactly how much money do we pay for an executive branch that knows nothing? Why are we paying them to know everything when they are incapable of making decisions? Who is making decisions?

Maybe the illegals are running America, maybe these are the jobs Americans won't do.

Who is running the country? ... Illegal Immigrants? Atheists? Muslims? Planned Parenthood? after all, it is these groups that are the recipients of our TAXPAYER DOLLARS. Maybe Obama has them signed on as advisers. Oh I forgot, he already did.

- How many Muslim Bro members are in our government plotting America's destruction?
- How many Illegals getting entitlements?
- Planned Parenthood getting federal funds to commit murder?

Yes, they are doing jobs Americans won't do.

As the silent majority follows directions by not talking about politics and religion, being politically correct, we continue to perpetuate the lies. Will you stand up, will you stop accepting the lies? Will you demand Impeachment? or better yet, a Citizens Grand Jury?

It is in effect a fourth branch of government "governed" and administered to directly by and on behalf of the American people, and its authority emanates from the Bill of Rights.

### **Environmental Terrorism**

Agenda 21 calls for the depopulation of the planet. What better way than to control food. The film you are about to view is important for 2 reasons:

1. You will learn the truth about GMO. I have spoken to Dr. Laibow many times. She is right on.
2. Listen to the scientists explain how their work was discounted due to the Monsanto money machine. You can apply all principals of the lies of Monsanto (Donald Rumsfeld - aspertime) to every FED agency. They all lie the same. They all follow the UN Agenda 21 FDA, DOED, EPA, DOI, NOAA, Their studies are inconclusive and determined by consensus. When faced with the truth, they lie more. This movie is worth the view. You will never look at food the same.

When going to a planning meeting learn by past mistakes remember:

1. Sustainable Developments (SD) are not proven to do anything except cost money by reducing taxable build-able land. Make them find 1 place running in the black.
2. Be overly expensive with products that do not work and only benefit friends of the govt eliminating competition.
3. Every SD builds a democratic base. Look at your voter map.
4. People not from your area will determine what people from you area should do.
5. Restricting consumption means restricting your consumption not theirs.

CA: The One Bay Area PCA meeting was filmed. If you have been in the fight against regionalism you should watch this video. The One Bay Area plan has two components; PDAs (Priority Development Areas) and PCAs (Priority Conservation Areas). The PDAs are the areas within the existing Urban Growth Boundaries where they will be building Stack and Pack housing. All other areas will be targeted for conservation! The PCAs are the first areas that will be targeted. This meeting was filled with stakeholders, public agencies planners, land trusts, etc. All waiting to make deals. MTC will be working with the SCC (State Coastal Conservancy) to dole out \$10million of our Tax Payer Transportation funds to UNelected UNaccountable groups (like Greenbelt Alliance, Sierra Club) etc. These agencies will then go target private property owners into signing conservation easements. The easement holders will be in control of the land. Not the land owner. The beneficiary of the carbon credit windfall will be the easement holder (land trusts). These easements will have completely different management plans depending on who holds the easement. The end goal is to form the California Essential Habitat Corridor System, which will create a wildlife corridor system throughout Ca. CalTrans and DOT are the fed and state agencies that are also involved. The ONLY way MTC is getting away with spending transportation funds on conservation instead of highways is because they are going to find Conservation projects that need some type of transportation related infrastructure and then they can divert funds to these projects. This is NOTHING about conservation. This is about diverting funds from roads to pet projects with special interest groups.

The Williamson Act is being phased out so that conservation easements and multi-level unaccountable bureaucracies can take over land rights.

The city information is on page 42-43. ! There is very interesting information on these pages—and remember these are from several years ago. Report was published Feb. 2011 and data was from earlier and I think it's much worse now. But here's some interesting facts on the minority stuff:

Looking at the impact on low income communities-Miami:

The share of loans was 2.1% for low-income. The completed foreclosure % was 14.0. The seriously delinquent % was 26.9%. Ok, let's translate that into numbers:

For every 100,000 people, 2100 were low income borrowers with mortgages. If 14.0 percent of the loans were completed foreclosures, then  $14\% \times 2100$  had completed foreclosures or 294. If 26.9% of the low income borrowers were seriously delinquent, then  $26.9\% \times 2100$  were delinquent or 565.

Thus,  $294 + 565/2100 = 41\%$  of the low income had serious mortgage problems.

The first article says that with the foreclosure rate for Miami being 3 x the national average that one in 79 residents received a foreclosure notice. But according to my calculations from the Center for Responsible Lending, 40 residents out of 100 in low income neighborhoods would have a foreclosure notice.

When you look at the minority status reflected in the CFRL reports, 27.1 % of the population in Miami with loans is minority and low income. So, for 2100 residents who were low income borrowers with mortgages, 27.1% were minorities so 569 were both low income and minority. Of that group, 9.3% had completed foreclosures or 53. Of that group, 20.6% were seriously delinquent, or 20.6% of 569 or 117. So for every 100,000 people, 2100 were low income borrowers with mortgages and 569 were both low income and minority. Of the 569,  $53 + 117$  had serious mortgage issues, or 170. 170 as a percentage of 569 is 30%. So one in 3 low income minorities who received their loans between 2004 to 2008 were seriously delinquent. This compares with the published figures above for Miami referring to a 1 in 79 foreclosure rate.

Re HB 87 -

Please call Gov Scott's office in the morning and tell him that Legal Constitutional Scholars have determined that HB87 is unconstitutional and violates our due process rights.

Call Gov Scott 850-488-7146 and tell him to listen to Floridians and Sen Soto who know this bill is a bad piece of legislation.

The national news media haven't discovered it, but the issue that is bringing out hundreds of citizens who never before attended political meetings is Common Core (CC). More precisely, it is the attempt of Barack Obama's Department of Education to force all states and schools to adopt specified national education standards for each grade level that will dictate what all kids learn and don't learn.

### Common Core Forcing Marxism/Nazism on America's Children

Vladimir Lenin also, said: "Give me four years to teach the children and the seed I have sown will never be uprooted." He was referring to the Luciferian Communist Party's child education—aka indoctrination—system. "Common Core" ... is also firmly tied to Agenda 21—the land-grabbing and human suppression and depopulation program.

Common Core is now in FL. This Bill must be repealed.

Columbia, MO, March 7, 2013 - "Who controls our media?" Speculation abounds as, clearly, our population knows the media cannot be fully trusted. The polls reveal the distaste our population has for the mainstream media. Yet, who does control our information? Peddling Influence, the latest expose' by independent filmmakers William Lewis and Gary Franchi, exposes this as it answers such age-old questions as: Do we really have free press? <http://williamlewisfilms.com/rtr.html>
