Understanding the Economy under UN Agenda 21
Part 1

The absolute most important topic we should focus on is... The ECONOMY.
Everything else as bad as it is, is just a distraction. For it will not matter

about Obamacare or Sustainable Developments or grants or anything when our nation's Financial System fails. Notice I said when, yes it will. It is mathematically impossible to continue on this path. But it doesn't matter since math and logic are no longer taught, it is not important.

According to Ann Barnhardt "The economy is going to implode and you deserve to understand why." Thank you very much Ann for reducing this mess to understandable language. Please view Ann's Youtube Video for a clear in-depth analysis everyone can understand.

<https://www.youtube.com/watch?v=7dFVFJ0iRRA>

How much of your wealth is real, can you defend it? If your money is in some account, what will you do to stop someone from confiscating it or turning off the power? The ease of which you can get your money is called risk. "How much are you at risk?" asks Ann Barnhardt. Who controls your money?

It doesn't matter if your money manager or you are honest, once the first country falls a domino effect will destroy everything in its path. This world economy requires mutually assured destruction where everyone is dependent on everyone else. **There is no protection.**

What is money? A proxy (substitute) piece of paper that the Federal Reserve has created collateralized by your ability to work. Money is a substitution for you. It replaces barter which is often cumbersome. Makes it easy to exchange goods and services. It also makes it easy to obligate you for debt future payments.

All currency is a Fiat, including gold. (a command or act of will that creates something without or as if without further effort). Anything you decide can become fiat currency. Time is money because money is the proxy for human productivity. The debt can only be repaid by your labor, your land or your blood. So why do we need money or gold, you don't. You can always barter.

Subject: How to recognize Agenda 21

freedominamerica.us

The only solution to the economic mess is a moral society. People are the power of "society". If the society is corrupt, then money doesn't matter.

Interest on money is necessary, for without interest, man's capacity or use of his time has no value. Interest is moral and essential. The only 2 societies that consider interest immoral are Islam and Marxism. Both Islam and Marxism are based on the worthlessness and hatred of man. Both say humans are worthless: These two systems forbid interest determining Individual man has no value. You can not have an economy that functions without interest. Without interest man cannot place value on his time. Therefore man has no value. Man is a slave.

There can be no middle class in Islam or Marxism, only elite and workers. Listen to Obama's speeches. He constantly lies and tells people he wants to help them get into the middle class, while his actions are designed to destroy the middle class.

The real economic problem is an unbacked, unsecured lending system. Read: "Leverage - How Cheap Money Will Destroy the World", by Karl Denninger

Banks have a reserve requirement (they must have money in reserve for each transaction) but use accounting tricks to continue to lend the same money over and over.

Example: If a bank gets money in that is called an asset. When you borrow from the bank, your loan is considered an asset to the bank. There are 2 types of loans.

- Secured - a loan based on collateral - your pledge to repay or in case of default, the bank gets your collateral. These loans usually have lower interest because you have also pledged.
- Unsecured loans like credit cards are based on you saying you will repay but offering nothing in case of default. They usually have higher interest payments because you have offered nothing in case of

default.

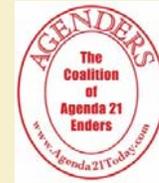

- At the end of his term in Lame Duck President Clinton repealed the Glass Steagall Act - the consumers only protection against this fraud. This escalated the economic destruction of the middle class so wealth could be redistributed from the middle class to the power elite. The unread but passed Dodd Frank Bill completed the process giving incredible power to the big banks while destroying local community banks. YOUR JOB IS TO SEND POSTCARDS, EMAILS AND CALLS: BRING BACK GLASS STEAGALL!!!

So let's step back and evaluate what we know so far:

- Our power hungry NWO elite believe the earth is overpopulated, the death of millions is a statistic, your purpose on earth is for their pleasure so they can conduct live experiments with all kinds of drugs, food, chemicals and stimuli.
- They believe earth is the center of the universe, all things on earth are of equal value except them. Your rights and everything else is provided by them a/k/a government.
- They lie, cheat and steal everything you own continually. They feel your TRUEST purpose on earth is to make them lots of money.
- They feel everything you own including your children should belong to them and you should pay them for giving you crumbs.

Knowing that do you honestly think they will pay any attention to what you say? Do you honestly think they will stop spending? Obama is following Cloward and Piven. The system will collapse. This is a distraction. They need you to spend so they can leverage your labor to more debt otherwise they can't pay off teach other with our money and CONTINUE TO BLEED US DRY.

The debt ceiling is a distraction so we will be confused, divided, they can call us names and they have more time to steal before they crash the system.

John F. Kennedy:

"Today, we need a nation of Minutemen, citizens who are not only prepared to take arms, but citizens who regard the preservation of freedom as the basic purpose of their daily life."

Keep the truth alive. End political correctness.

Citizens Town Hall in Danville on January 15th, was a great success. The room was packed to capacity with concerned Danville Residents who came out to hear what is being planned for their community. The meeting was a collaborative effort of different groups all opposing the Danville 2030 Plan. SOS Danville, Citizens Town Hall and Friends of Danville were there to inform fellow residents about the 2030 Plan, EIR (Environmental Impact Report) and SAP (Sustainable Action Plan) being considered by the town. Almost 4,000 flyers were hand delivered announcing the town hall. Over 50% of the audience proudly held up their flyers when asked How did you hear about the meeting.

EPA can regulate everything

only if we let them... "[Sustainability and the U.S. EPA.](#)" This manifesto rationalizes why the EPA has the right to regulate every business, community and ecosystem in the country.

"Sustainability is based on a simple principle: Everything that we need for our survival and well-being depends, either directly or indirectly, on our natural environment. Sustainability creates and maintains the conditions under which humans and nature can exist in productive harmony, that permit fulfilling the social, economic and other requirements of present and future generations." What can the EPA therefore regulate? Everything. Because everything depends on our natural environment. Can you use that? Not if we decide some other use is more important. What if my claim is most important?

SCHOOL

DR Stotsky, Indiana recognizes the horror of common core. Indiana is considering eliminating Common Core after its superintendent left. Guess what? The former Superintendent of Indian schools is now superintendent of Florida Schools. Florida is so lucky we have Tony Bennet, on Jeb Bush's chiefs for Change out to turn Floridians into good little communists while the taxpayer foots the bill. Ain't life grand.

As Dr. Stotsky suggested to Indiana:

1) *The Indiana state board of education should re-adopt its own, first-class English Language Arts standards (with perhaps minor changes), as well as its own first-class math standards (which the latest Trends in Mathematics and Science Study results suggest are working well in Indiana); and*
2) *label them Indiana "college-readiness" standards just as other states have labeled their own standards.* [read the article](#)

Demand America be returned to school. Common Core = Communism.

Stupid is as stupid does. Are we so stupid that we will continue to allow communism to run our schools? The problem with the schools is COMMUNISM. Your children are being taught to hate you and love the Communist US Government.

School is nothing more than brain control. In 12 years, Americans will have little or no cognitive thinking skills. They will become glorified button pushers.

If you care at all about education, buy Charlotte Iserbyt's, Deliberate Dumbing Down and see this video [The Miseducation of America](#)

Communists also outlaw private and homeschools.

So while you are fighting for choice, ask yourself, who's choice?

If you do not change the curriculum, does it matter where your child learns to be a communist?

Communication Is Key...

We believe in the power of the truth. Since we have been blocked from MSM, we will create our own media. We will go high tech and low tech. There is only one way to take back America and that is with the truth, education, communication and action. So what can you do?

Low Tech: Go to americanpatriotnews.us

Use the front page and name, become the American Patriot news of __your county__
To make it easier, the front page and cover is federal, just add your state and local info on the back. Work together with others in your state and local. United we win.

agenda21today.com under [American Patriot News.](#)

This is a perfect project for your group. Imagine if your community was informed when Agenda 21 meetings occurred, when commissioners made decisions prompted by Regional Councils, NGO's and Non profit conservation groups. If you print the truth they will read it. Too many people are hungry for truth, you can provide it.

This is a great project to incorporate the youth. Make them into reporters, teach graphics, have them find locations. Ask them what they want to read...You will wind up teaching them a lot of truth and they will learn to read.

HiTech: Want to go HiTech, can you produce a show? Do some DVDs, radio TV? Are you creative? Check out our new network participate in freedominamerica.us

We are under construction with a target date of late January. Contact us as we bring up our new IP radio and TV shows for truth in media.
