

# Finally the truth about the Obama economy.

★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★

"The question is do you want an economy that will increase the opportunity for the middle class or continue down the road we are on today?" in a Mark Levin sound byte today this message came from David Axelrod. Is this the only true statement Axelrod has said in a long time?

While Americans suffer, with high gas and food Obama, continues his string of lies while trying to divide the country and give away our wealth because individual wealth and private property ARE NOT SUSTAINABLE (except of course if the wealth is theirs). Divide and conquer is the only play left in his communist play book that still works. Unless we the people start talking to each other.

Communists are masters at group manipulation. The group not the individual becomes important. That is why they are so great at mob manipulation. We must become one group, Americans. No filters, no qualifications, just Americans. Talk to your neighbors, talk people on lines in the supermarket anywhere. Keep the conversation simple, Just talk about the economy. 70-80% of the people are not happy about the economy. Keep your message simple and direct, "man this economy is so bad I am having difficulty deciding whether to buy food or gas." Once you become a real person, people will have a hard time believing you are a

racist, woman hating individual. The Elite do not want us to talk, So we must. With a few facts you can turn any conversation to the economy.

My favorites are the manipulation and lies about the environment. Everyone know we don't want to harm the planet. We are all smart enough now to recognize how the environment is just the tool for control. They only way someone can get control of you is if you give it to them. SO STOP. Tell the truth. What is happening in America today is about MONEY, POWER and CONTROL. America is the richest self sustaining land mass in the world. The middle class owns the land. The Elite wants it. STOP giving America away by being politically correct.

Most people who buy into the "green" mantra have no idea of it's origin or it's implications for their lives and liberty. Ecotyranny exposes the truth from its beginnings (Karl Marx) to its current incarnation (Al Gore and Global Whining). Having experienced the effects of Ecotyranny in California from out of control environmentalists and unelected bureaucrats, I can testify to the importance and timeliness of the... Americans will have a choice this November. Below is a look at Greece which will be the new America is Obama gets 4 more years.

Are concentration camps back?

Birkenau fence from WW2. Soon tens of thousands will start disappearing behind barbed wire in new 'closed hospitality' centers across Greece. What starts in Greece will no doubt spread across the continent. Greek democracy is in paralysis with the main parties no longer able to win majorities. It's the same in many countries across the EU where loss of authority has lead to the fracturing of the main parties. That plus blame all your troubles on the influx of desperate foreigners - most of whom are dislodged by NATO's wars. The descent into barbarism is complete. [Read More](#)

The CAR (Calif. Association of Realtors) is hosting a legislative day up in Sacramento, Ca. on May 2nd. Only problem is there are ONLY liberal progressive legislators who have been asked to address the group. See the flyer (pdf) below. I signed up for this event and wrote a scathing email. See below. I plan on attending this event. I am calling on ALL conservative Realtors to attend this event and speak out against SB375 (stack and pack housing) and AB32 (Cap and Trade) and how this is destroying our liberties and private property rights. If you can't attend please send an email to your local board or the CAR board! Do something please!!!! If you plan on going to SAC let me know so we can meet up when we get there.

### Georgia:

An innocent man who had legally been raising a few chickens in the backyard of his suburban Atlanta home is now dead, following a crusade of terror perpetrated against him by the City of Roswell in Georgia. It started when the City of Roswell Zoning Department issued Andrew Wordes a citation for having chickens on his property, even though the code specifically allows for poultry.

He fought it and won. So the City Council REWROTE the ordinance and came after him again and again.

They even flooded his property. And that's just the beginning...

This is our right as Americans to FARM and to feed our families! Why do you think they are attacking the small farmers? To get control of ALL OF OUR FOOD SUPPLY! He who controls FOOD...CONTROLS YOU!

**NaturalNews exclusive: Michigan government unleashes armed raids on small pig farmers, forces farmer to shoot all his own pigs Monday, April 16, 2012**  
by Mike Adams, the Health Ranger  
Editor of NaturalNews.com

NaturalNews can now confirm that the Michigan Department of Natural Resources has, in total violation of the Fourth Amendment, conducted two armed raids on pig farmers in that state, one in Kalkaska County at Fife Lake and another in Cheboygan County. Staging raids involving six vehicles and ten armed men, DNA conducted unconstitutional, illegal and arguably criminal armed raids on these two farms with the intent of shooting all the farmers' pigs under a bizarre new "Invasive Species Order" (ISO) that has suddenly declared traditional livestock to be an invasive species.
