## Transforming America

### While you and the media were busy

discussing and dissecting the death of bin Laden, President Obama was busy by-passing Congress and using Executive Orders to fund unconstitutional agencies. These agencies EPA, DERM, DOT, FDA, HUD, DOED, NOAA are creating more regulation based on phony science designed to destroy the American economy and middle class.

Let's see how that Hope and Change working out.

Congress (who can find anything to cut from the budget) is spending your tax dollars to destroy your children's

### [Agenda21Enders Conference](#)

You are invited to the first [Agenda21 Conference](#), June 11 in Lakeland Florida. Learn about Agenda 21. Recognize the signs in your local communities as soon as ICLEI or zoning, planning, grants and water management rear their ugly heads.

### Call to Action

Lower energy costs and bring jobs back to America. STOP funding Brazil and Mexico. American's need work.

future.

**Dept of Education - We HOPE** our students would learn more after we spent billions on unproven educational programs. But American student's grades are slipping. Education in America has become a communist indoctrination where students learn that America is bad, the UN is good, Family is bad the UN is good. They hardly learn reading, writing and math let alone some electives like civics (22% of the students understand), economy and American history and values. DOED uses fancy words to get states to sign onto an expensive unproven, watered down, communist indoctrination they call education. Race to the Top is nothing more than a Federal Government mandate which will leave the states strapped for cash as they compete for watered down UN based international, academic programs. Is that a **Change you enjoy?** Read about [Child Abuse by the DOED](#).

## How about the Department of Transportation (DOT).

**We HOPE** infrastructure funding would be used to replace some of those worn out roads, bridges and tunnels. Remember those billions we needed for shovel ready jobs. Your tax dollars are being spend on a Super Highway from Canada to Mexico cutting right through the USA. Even thought you said NO. Is Congress listening, NO. President Obama signed this Treaty with Canada using Executive Order

**Bills important to USA and STATE sovereignty are not being passed.**

**We need your donations.**

The Agenda 21 Team is creating an information packages that WE THE PEOPLE can take to any legislator, mayor, commissioner to expose

bypassing Congress. Oh what a surprise.

The Trans-Texas Corridor, part of the NAFTA Superhighway will **CHANGE** to our landscape and property rights is on the menu gobbling up hundreds of thousands of acres in Texas. In southwestern Indiana alone, I-69 would destroy and disturb much of the area's remaining wilderness and evict 400 rural families. Furthermore, I-69 is projected to add 12,000 new trucks to Indiana's daily traffic, meaning a vast increase in the air pollution and emissions of greenhouse gases in our state. [Read More](#)

## The UN works to annihilate the concept of individual rights and the American Taxpayer foots the bill.

We the people were **HOPING** that our legislators would stop UN funding to destroy America but they can seem to **CHANGE** the corrupt way they spend taxpayer money. Instead the new UN new deal is for the UN "to fundamentally transform the global economy - based on low-carbon, clean energy resources." And YOU, the U.S.

this UN take over of our State and Country.

This professional package will go out for all to see and use in your state or community.

We will be prepared for 2012. Every legislator, mayor and commissioner will have an Agenda21 education and will work to preserve America for WE THE PEOPLE.

citizen will pay about 1\$Trillion of borrowed money for the pleasure. The new funding scheme: a carbon tax, a tax on international aviation and shipping, a financial transaction tax, and a wire tax for producing electricity. They also proposed taking 100% of the fossil fuel subsidies and redirecting them to international climate action. AMERICANS PAY WITH BORROWED MONEY. AMERICANS ARE OUT OF WORK. Our non-energy policy will keep gas prices high and businesses our of business. That's OK the government will support you with more borrowed money. [Read More](#)

## American Fish or Toxic Foreign Fish

Did you HOPE that the fishing industry would return. Think again. NOAA uses phony data to close the Red Snapper and Black Sea Bass fishing industry. We have been trying to figure out why so many of the NGO's and NOAA and our own government was hell bent to close down so many fisheries by any manner possible and I think we have connected the dots. [FDA wants you to eat Fish and vegetables from contaminated tanks called Farm Raised.](#)

After all the UN elites want a world with Zero Carbon and less than 500 million in population so eat contaminated food. [Bill Gates calls for depopulation by zero carbon, vaccines and abortions.](#) Thanks Bill you

## the People

TheBoth congress and the American people said NO to signing Agenda 21 but the administration is using its Executive Power. ICLIE, that UN agency has decided to by-pass Congress and the will of the American people and will continue to force its phony science on you and your local community to dismantle America while you foot the bill. [The Wildlands Project](#) is designed to steal your land. ICLEI shows you local government how to deem land unusable.

## theGas Prices are High so Obama can fulfill his campaign promise, "Your energy prices will necessariy skyrocket."

Gas prices are high because currency is being manipulated and Obama wants you use mass transit or bicycles and live in Sustainable government controlled communities. Through [Executive Orders HUD-DOT-EPA formed a Partnership for Sustainable Communities](#) are giving grants (your tax dollars) to use overly expensive techniques to save energy in your city.

## 11 Florida Senators DO NOT CARE about legal Florida citizens.

Last week in Tallahassee, thousands of illegal immigrants from well funded

are such a humaniatrian. How about if you listened to the 3200 scientists who said the science around green house gas is bogus. Humans have little or no effect on climate control.

Just when you thought the Law of the Sea Treaty was DEAD. Think again. Another executive order created the [World Ocean Council](#) designed to give the sovereignty of our oceans and waterways to the UN and to charge Americans a special tax so we can give the UN the money to implement its take over.

The WOC will become an non-profit non-governmental organization registered in the US and the UK in 2009 e.g., NGO workshops on MPAs, the annual UN Law of the Sea consultative meetings, to broker improved interaction and meaningful progress in addressing marine environment issues. Didn't Americans say NO to the Law of the Sea????? For a **Change**, Obama bypassed Congress.

Support Israel Days

NGO's descended on the Capital disrupting proceeding and shouting, "We are Florida." I got news for them, WE PAY FLORIDA's bills and WE didn't like the outcome as our senators buckled and refused to pass an eVerify Immigration Bill sponsored largely by the open borders Agenda 21 NGO's and George Soros' money. [Read More](#)

Florida's budget is red for about \$14Billion.  
\$5.4 of that goes to **Pay for illegals**. Every legal Floridian family of 4 pays over \$1200 a year to support illegals. Destroying the economy by over burdening entitlements is one way. Open borders is the other. Remember these Senators who refused to vote for a strong immigration bill when your child fails in school and your services are cut.

American roots are based on Judeo-Christian values. The very structure of our government came from Moses and the Ten Commandments. May 14, 1948 marked the rebirth of the nation of Israel. Sadly, her Arab and Muslim enemies vowed to destroy Israel. Many Arab and Muslim enemies have no idea what the conflict is about but still they mark May 15, as [Nakba Day](#) ("day of the catastrophe") and are promoting and organizing a massive [movement](#) against Israel on May 15. Israel is and has historically been America's only genuine ally in the Middle East. As the last free nation in the Middle East, Israel has the right to exist and to defend herself. We stand with Israel and Freedom; join us.

On May 13, 14, 15, we will wear the Israel Star of David to show the world we support the right of the Israeli people to protect their freedom. This star can be printed and worn on your left lapel.

**Congress is not paying attention,** Are you? Congress could cut Trillions from the bloated budget by defunding these unconstitutional agencies and get Americans back to work. Now that would be HOPE and CHANGE we could live with. **America is under attack from without and within. The sucking sound you hear is the UN AGENDA 21, Earth Charter being implemented in America designed to transform America into a land that you will never recognize. The fact that without approval from WE THE PEOPLE and Congress "NO" doesn't matter to the administration and the Communist/socialist/progressive Czars appointed to control these agencies and our lives. Help us stop the bleeding of American Freedom. [Read Tom Dewese.](#)**

Make it your goal to get rid of those elected officials who won't listen. Make them pay for their actions. Do it just a couple of times and you will see a fast change of attitude by the rest.

Together, if we stand vigilant, if we speak the truth, and don't allow it to hide in some political double speak - if we stand by our principles - because we are right - we can - and we will - take America back.
