Hello Americans:

Its March and spring is near birds will be singing and flowers growing, but what about all of the man made global warming that is blanketing the North with feet of snow in unprecedented amounts. Could it be that John Casey and about 30,000 other scientists know something the administration doesn't? It is called the TRUTH.

Even according to the IPCC (*Intergovernmental Panel on Climate Change*) no global warming, no real change in the weather for the last 17 years. Global Sea Ice is above average no melting there...  
So what is really going on?

Does Obama has an agenda called destroy America. He doesn't care about pain and suffering actually he wants Americans to suffer. Every policy, every speech says exactly that. Remember Maurice Strong, "In order to save the planet, we must destroy capitalism." America is being closed industry by industry:

- No Keystone even though the EPA said it is safe
- Minimal fishing for Red Snapper due to phony data
- Food shortages due to over regulation
- Mandates for gas not yet produced with penalties for auto manufactures
- Cars that will be so light they will be unsafe
- Americans starving, so food is destroyed
- Americans living in tents and cars, we build bike paths and roundabouts
- Economic destruction, moral destruction
- Indoctrinating children into the belief the the collective is more important than the individual
- Taking guns from Americans while giving guns and money to our enemies.
- Riots and mob violence unreported in our cities
- Forcing one size shoe fits all Obamacare, Common Core
- and lots more. I bet you can name 5 more without looking

With all of this going on Obama is focused on bypassing congress and instituting a carbon tax; how many time did we say NO? It does not matter what we say because there is no adult in the White House only a spoiled selfish manchild who will break everything he can't own and control.

Obama and his comrades are in phase 2 of communism following UN Agenda 21. Step One: create the crisis - 9/11. Step Two: People give up Rights for security, gov't demands more taxes and regulations to pay for protection. Destroy the middle class by over regulation to put small biz business out of biz, get as many people on entitlements so they will never vote for any other party, following Cloward and Piven destruction of America is inevitable.

To further the advance of their quiet cultural revolution:

1. The creation of racism offenses.
2. Continual change to create confusion
3. The teaching of sex and homosexuality to children
4. The undermining of schools and teachers authority
5. Huge immigration to destroy identity
6. The promotion of excessive drinking
7. Emptying of churches
8. An unreliable legal system with bias against victims of crime
9. Dependency on the state or state benefits
10. Control and dumbing down of media
11. Encouraging the breakdown of the family

So what do we do? Sit and watch the Titanic go into the iceberg? I reread the Declaration of Independence. Replace King with Obama and see if it fits. Reading the Declaration was uplifting and I suggest you do the same. Outnumbered freedom fighters in America went to war over freedom and liberty. We have many more and growing.

It is time to redress our grievances ...if we follow the constitution, then IMPEACHMENT is our answer. So we called some of the legislators in DC that mentioned impeachment in a conversation or a speech asking if they had enough to impeach. Each said yes but where are the people? They

feel the people are not with them. I said not true. I asked if they could all get together and come up with one infraction and go for it. They will think about getting together.

Today on Hanity, Rep Louie Gohmert said, "The people can defund Obamacare but no one is calling. In the last 3 weeks he has not gotten any call about Obamacare."

That is them, what about us. Are you fed up enough to stand strong and demand impeachment? There is a list on our web site

Will you call these Representatives and demand Impeachment? Will you call groups and ask them to do the same? Next week we will ask you all to Twitter and FB to all of the legislators and demand Impeachment? How about a 7 day social media blitz, each day a new message sent to the media and congress. Think they will listen?

I will not comply, will you? I will prepare, will you? Will you tell the truth to everyone you meet? Will you reach out and end the divide by being an American? Will you call your legislator? Will you demand your legislator stop funding communism and bring America back to school?

Go to [Agenda21today.com](http://Agenda21today.com), Get Involved and use the tools to help, get on our call Thursday night.

Go to the Anti Agenda 21 legislation and sign the petition.

We must stand and fight the forces of evil as unified Americans for there is no place to go once America falls. YOU ARE AMERICA.

FL: State Sen. Alan Hays, chairman of the Senate Appropriations Subcommittee on General Government, says he was "astounded" to learn how much of Florida is owned by government agencies. He has introduced legislation that he said should start a conversation about how much is needed.

**Sen. Alan Hays**, chairman of the **Appropriations Subcommittee on General Government**, has introduced **SB 584**. The bill allows state agencies and local governments to buy conservation land only if an equal amount of property not being held in conservation is returned or sold to the private sector.

## **Economic Terrorism**

Sequester was a big lie spread by Obama, the liar-n-chief. That pathetic wimp only wants to hurt the people. Create the crisis, sequester. When you feel pain you will scream for the great savior to save you from those evil Republicans and Tea Partiers who want to destroy you. But thank you, Bob Woodward, for breaking the mold and finally telling the truth. looks like you started something O'Reilly went after Alan Combs for lying. There is hope.

The black hole surrounding high speed rail and lite rail is staggering. Is there a proposal in your state? Read what Robert Samuels says There is something about Amtrak — perhaps the romance of railroads or the promise of relieving traffic congestion and economizing on oil and greenhouse-gas emissions — that causes otherwise sensible people to lose contact with reality. The reality is that Amtrak has been a waste of taxpayer money since its creation in 1970. It doesn't significantly reduce congestion, fuel use or greenhouse gases. Amtrak is too small to have any appreciable effect in any of these areas. Yet it retains an aura of respectability with much of the public and many "experts," who believe it should survive and, perhaps, expand. [read more](#)

Senator Rubio Asks For Review Of Stock Assessments To Protect Fisheries & Fishing Communities In Gulf

Washington, D.C. U.S. Senator Marco Rubio (R-FL) and senators from Mississippi, Alabama, Louisiana and North Carolina today sent a letter to the U.S. Government Accountability Office requesting a review of how the Department of Commerce conducts stock assessments in the Gulf of Mexico and South Atlantic. The stock assessments conducted by the National Marine Fisheries Service are critical in maintaining the vitality of the fisheries, the fishing communities, and related industries in Florida and the region.

"Stock assessments are the foundation of sound fishery management," said Rubio. "It is vital that, as we work to preserve the waters and resources surrounding Florida and other states, we base our management decisions on sound science. The report we've requested today will shed light on the decision-making process within the National Oceanic Atmospheric

## National Defense

Last week Obama continued the road to American destruction by shutting down the radar defense from our southern border. (That is to make it easier for radical Islamists and other criminals to join the criminals DHS let out of jail while legislators want our guns.)

Americans that is very scary. This reminds me of pictures of battleship row Pearl Harbor Dev 7, 1941

This picture was taken the other day in Norfolk . The Obama Administration ordered 5 nuclear carriers into harbor for "routine" (?) inspections. Heads of the Navy were flabbergasted by the directive.

NORFOLK , VA. (February 8, 2013). The first time since WWII that five U.S. aircraft carriers were docked together.

USS Dwight D. Eisenhower (CVN 69), USS George H.W. Bush (CVN 77), USS Enterprise (CVN 65), USS Harry S. Truman (CVN 75), and USS Abraham Lincoln (CVN 72) are all in port at Naval Station Norfolk, Va., the world's largest naval station.

Sources stated that this breached a long standing military protocol in the Navy meant to avoid massive enemy strike on major US forces. (U.S. Navy photo by Chief Mass Communication Specialist Ryan J. Courtade/Released)

The people who put Obamacare together NEVER looked at cost. Obamacare will bankrupt each state.

Once again the RINO party sells out.

Sixteen Republicans stood up to the House Leadership and voted against the Rule for the Continuing Resolution. That Rule has now passed. What that means in plain English is that there is no chance to defund Obamacare. There is no chance to reduce spending. There is no chance to stop the \$250 million gift to Egypt's Islamist government.

## EDUCATION

Common Core:

"Education should aim at destroying free will so that after pupils are thus schooled they will be incapable throughout the rest of their lives of thinking or acting otherwise than as their school masters would have wished ... The social psychologist of the future will have a number of classes of school children on whom they will try different methods of producing an unshakable conviction that snow is black. When the technique has been perfected, every government that has been in charge of education for more than one generation will be able to control its subjects securely without the need of armies or policemen." - Johann Gottlieb Fichte

Critics rap Jeb Bush's education foundation. Jeb has been touring the country spreading Commie Core all over.

Critics say former Gov. Jeb Bush's foundation pays for public officials to attend conferences, where they meet representatives of corporations who stand to gain from the policymakers' decisions.

To add insult to injury, the cost of Common Core is staggering. The total nationwide cost for 7 years of the Common Core Standards Initiative is \$15.8 billion. This includes the cost to states of CCS Testing, Professional Development, Textbooks, and Technology. (Other costs not shown in this report would be the cost to set up and administer a nationalized teacher
