Some of the issues in this letter are repetitive. That is for a reason, it takes the average person 10 times to see something before they pay attention. It is also important for you to understand that

- everything is connected
- everything happens for a reason
- nothing is random
- everything is planned
- EVERYTHING IS A LIE

This is a newspaper, and should be read one section at a time. After each section take a breath, let it sink in, then think what is the opposite.

Hello Americans:

Bad news for Floridians. DHS may come and round us up any minute. They are close to figuring out that Florida resembles a gun. Better Prepare...a pop tart? really...

So what do we know?

UN Agenda 21 was a plan promoted by the UN signed by GW Bush 41, refused by the Senate, instituted by EO from Clinton, funded by Bush 43 and implemented on steroids by Obama.

They all knew and all conspired to keep it secret. All support documents are on [agenda21today.com](http://agenda21today.com)

The purpose of Agenda 21 is to steal the wealth of America, depopulate the planet - so they can control us, and eliminate private property while replacing the US Constitution with the Earth Charter.

Agenda 21 is a communist plan to inventory and control every aspect of human activity by forcing people to live in "sustainable developments" (they use to be called soviet city-states). It calls for the elimination of borders and private property so all land can be placed under UN control with a New World Order. Harvey Ruvlin, Miami Dade Clerk of Courts said, "Individual property rights will have to take a back seat for the good of the collective." That is the goal, Agenda 21 is the plan, the Johannesburg Accord is how this get implemented.

Schools are to replace family with school, God with government (UN) and America with the UN. That is the purpose of Common Core with the added caveat of a National Data base to report on all student and family activity. The expense of this insidious program is overpowering. Choice will eliminat4e school boards by replacing them with charters that are accountable to no one. **YOU are paying for schools to indoctrinate communism to your children**

PPP's are created to eliminate competition for government favored corporations, making the debt public and the profit private with no elected official representing the people. School choice is a perfect example as Charters will be responsible only to the shareholders. **YOU are paying for private companies to eliminate competiton with no government oversight.**

Regional councils are used to eliminate local Commissioners and councilmen as the programs cross boundaries allowing unelected bureaucrats to write regulations often forcing people off land under the names of some conservation scheme. **YOU are paying for the salaries, programs, marketing trips for these councils to lie to your elected official and suck them into a phony green scheme.**

Federal Grants are offered to hook unsuspecting official into extremely expensive unnecessary programs which eventually bankrupt communities and force loss of private land. **YOU are paying through taxes for the government put your money into a scheme with a never ending sucking sound called your community resources.**

NGO's like ICLEI, FAC, ICMA, Council of Mayors, counties etc., APA and over 2000 others get tax dollars and create grants to "train" local officials and entice them into creating walking paths, bike, narrowing roads, conservation, living sustainably etc without investigation into need, cost, ROI, maintenance. As these properties come off the tax roles, the people left are responsible for the taxes which never go down. Residents should ask themselves and their commissioners, how high do I want my property taxes to go to cover unnecessary conservation schemes? **YOU are paying for the salaries, programs, marketing trips for these councils to lie to your elected official and suck them into a phony green scheme.**

The Precautionary principal is used replacing truth and factual information like: I think it will happen so we must do this now today just in case. So far the EPA and NOAA have closed Florida farms and fisheries using this tactic. This is the same approach used to close the oil and coal industry. Florida was #2 in Agriculture and has the largest natural gas reserve in the world. Using this principal unsuspecting legislators made Florida off limits. Instead Florida is being "sold " to private international corporations using taxpayer funds for tax rebates and subsidies. This gives Floridians a JOB not a business. **YOU are paying for the salaries, programs, marketing trips for these councils to lie to your elected official and suck them into a phony green scheme.**

This articles will explain more about the restrictions caused by the tentacles of Agenda 21. The UN set up over 2000 non- profit and NGO's with the help of our government agencies to implement the agenda.

The environment was used as the crisis to scare everyone into accepting the fact that they must give up land and freedom. The unelected bureaucrats became regulators and began enforcing laws they made without oversight. Many NGO's have their budget tied to your fines, permits and taxes. Many times a portion of the taxes go to the UN.

An example of the global warming hoax is that the climate is actually getting colder and food shortages (resulting from flooding, frost and over regulation) will be a major issue - no food, less population.

All environmental programs are built on lies with one goal in mind - your private property.

The most insidious is CO2. Students no longer learn that CO2 is necessary for plant life. Plants need CO2 in order to PRODUCE FOOD. It is not a toxic poison, does not have anything do do with the cause of global warming. If it was, then how can soda, wine and other carbonated drinks still be on the market? After all we are drinking CO2 in its raw form. So why the attack on CO2. FOOD. Less CO2, less food. Less food, less people, depopulation by starvation coming soon to a town near you. **YOU are paying for the salaries, programs, marketing trips for these councils to lie to your elected official and suck them into a phony green scheme.**

The economic melt down and housing bubble insured the destruction of the middle class forcing people to depend on the government insuring that they people will read government propoganda and vote properly. Communism has no allowance for a middle class who can gather wealth. Your individual wealth is unsustainable, not theirs.

Once housing is under government control, prices in the "sustainable development" escalate and most can not afford the taxes.

Hong Kong one of the richest cities in the world has the solution that will probably be touted by Joe Biden as the next sustainable low income green village since he loves the Chinese policies .....

become a communist nation full of slaves not free citizens. What did our heroes die for?

The Government has NO money unless they steal it from you in the form of taxes, fees, permits etc. America is a Constitutional Representative Republic. The Constitution is the law of the land, whether you like it or not. If you don't like it, MOVE.

Representatives are supposed to listen to their people and vote for the people. If you don't say anything, they will vote in their best interest. That is why legislators leave office worth millions by stealing from you. So do we repeat the same thing over again and elect the same criminals because they are a slick talker or a good liar? or will you stand for America. Because this is the last stand you will ever take.

So, are you happy with the way our government is spending your money? Will you call? email? Join a groups and help. We have one job. Win 2014, the House (by replacing the do nothing group there now) and the Senate. Otherwise this Government under Obama will RAID your bank accounts and that is just the beginning.

It is our mission to educate as many of our legislators as possible so they can stop these great sounding bills that have a totally different meaning then the original intent.

Think of Agenda 21 as a giant puzzle and everyone has a tiny piece. No one knows that all of this eventually fit together and the result will be people in cages and animals running free. Think of the Hunger Games, which district will be yours.

Remember, this took them over 100 years to do this it will not be explained or eliminated overnight, but if your legislators get it, we can start taking it down.

## **Environmental Terrorism**

Another assault on farmers and ranchers by the federal government on behalf of the United Nations Agenda 21/Sustainable Development! They are trying to gain control over land rights, water rights and the food supply. Any and all measures must be taken to prevent this! Read what Stalin did to the Kulaks when he got control of their food supply. Also, know that Frank Marshall Davis, a card-carrying communist and apologist for Stalin and Barack Hussein Obama's most influential mentor once said, "You have to break a few eggs to make an omelet." In other words, so what if you have to starve 11 million people in one year to gain more power. (Thank you Robert)

male. How do they do that? divide and conquer, fitting perfectly into the homosexuality push.

"As most observant Americans know, the homosexual/lesbian/transgender community is a well organized and vocal special interest group, comprising no more than 3% of the nation's population. Using the entertainment, media, and education establishment, they have succeeded over the last three decades in pressuring state and federal officials to grant them special rights and protections, ostensibly because... as they assert, they are being discriminated against."

As Scott Lively said, *"Society is not obligated to recognize and bestow benefits upon any group of individuals who profess to love each other."*

What about the right of heterosexuals? Most just want to be left alone and not have any sexual behavior displayed in school for their 6 year olds. What about their rights? Apparently, they lost their voices and allowed these programs to flourish for years. Now we are seeing the results of silence. You are paying for these programs in your schools indoctrinating your children into homosexuality - not tolerance. Homosexuals are being used just like the rest of us. Remember Homosexuality decreases population.

## Property Rights

In most communities, neither victims, nor the proponents of sustainable development are aware that their plight is part of a global agenda. Indeed, most would scoff at the idea. Nevertheless, the transformation of America is well underway, without public debate or Congressional approval. From watershed, to ecosystem, to village, to city, to multi-county regions, to trans-boundary biospheres- the U.N. agenda is being systematically implemented- with the help of elected officials, paid for with the taxes of American citizens.

## ***Communication Is Key...***

Create your own media. There is only one way to take back America and that is with the truth, education, communication and action. So what can you do?

Columbia, MO, March 7, 2013 - "Who controls our media?" Speculation abounds as, clearly, our population knows the media cannot be fully trusted. The polls reveal the distaste our population has for the mainstream media. Yet, who does control our information? Peddling Influence, the latest expose' by independent filmmakers William Lewis and Gary Franchi, exposes this as it answers such age-old questions as: Do we really have free press? <http://williamlewisfilms.com/rtr.html>

Imagine if your community was informed when Agenda 21 meetings occurred, when commissioners made decisions prompted by Regional Councils, NGO's and Non profit conservation groups. If you print the truth they will read it. Too many people are hungry for truth, you can provide it.

The youth can become the reporters, learn graphics, get distribution. Ask them what they want to read...You will wind up teaching them a lot of truth and they will learn to read.
