

For the last 15 years, American Education has deteriorated.

RTT – IB – ACIE –NCLB

- More Expensive
- No change in learning (15 yr history)

America's standing is behind many third world countries: 23-Reading, 37- Math, 43-Science

- Indoctrination not education
- Students have no Freedom of Choice
- Students are trained for work not educated for life
- Students are trained to become good globalists and accept the UN as its master
- American history and values are no longer taught
- Students are taught that individual liberty must take a back door for the good of the collective
- American gives control of education to the UN

The Government's Answer: More \$\$\$ and Lower Standards

Education Secretary Arne Duncan on March 2011, admitted 82% of public schools could be labeled "failing" under NCLB. His solution is to stop calling them "failing," extend the target date for student proficiency to 2020 and, of course, to appropriate more money.

Eric Holder's answer to failing grades on Police exams is to lower the standards needed to pass the test.

President Obama wants to put more money into the notoriously socialist program called Head Start. Head Start got a \$53 Billion increase.

We have precious little to show for the \$2 trillion in federal education spending over the past half century, and Andrew J.Coulson of CATO has the charts to prove it. **It now costs three times as much to provide essentially the same education as we provided in 1970.**

American Education is TOO BIG TO FAIL

Liberals have controlled Education for the last 15 years. Regardless of the trillions used to promote these failed programs, no significant results have been achieved. Time for a change.....

Short Range Immediate Goal:

- Learn about IB, AICE, RTT, NCLB. Share information with Legislators, School Boards and Parents.
- Promote School Choice and offer a factual based curriculum as a choice.
- Use technology to eliminate textbooks and bring back the traditional approach to learning. Teach core courses to educate the students. You will see better results in one year with less Taxpayer money.
- Engage parents, teachers and students in the experiment.
- Save the state millions by a back to basics curriculum.
- Adjust entitlement programs for all students. i.e Food. Have a value perceived program. Parents (especially those on Food Stamps who are already compensated,) should pay 50¢ for breakfast and \$1 for lunch. Don't give computers to those without for home use - instead lease them. This teaches families that nothing in life is free. If a value is attached, more care of the object is given.
- Bring American exceptionalism, individualism, competition, morality and nationalism back to the American Schools.

UN Agenda 21

The UN's plan to take over Education in the USA

In Your School

Agenda21today.com
PanhandlePatriots.com
Freedom is Power

"The Global Teaching and Learning Project of the UN in New York accepted an IBO tender to produce two teaching booklets about UN global issues. ... The project has been undertaken by the International Baccalaureate Curriculum and Assessment Centre in Cardiff using experienced curriculum writers from around the world, principally in IB World Schools, and having UN input and approval of the 20 units completed. They will be copyrighted by the UN, with acknowledgement to the IBO for its work, and disseminated to the governments of all member states for use in schools." IBO.ORG

RTTT Finds Someone to Blame: Everyone reports the Education problem and blames the teachers for its failure. The Legislator's remedy is, "A new Law affecting teachers, evaluation, lower the standards or give more money." Without realizing all they are doing is putting a band aid on a sliced artery. There is a concerted effort to dumb the kids by focusing on irrelevant tests for 4-5 months out of the year while forcing teachers to teach a curriculum based on international concepts instead of logic, reason, critical thinking, and comprehension. Today students graduate with their best skill, "taking a test."

RTTT is a UNESO supported program that brings Common Core Standards - really substandard, anti-American indoctrination to the classroom. The National Data Base is an unfunded mandate forcing states to comply.

Change the Goal while no one is looking Marc Tucker, RTT, NCLB stated "to remold the entire American system" into "a seamless web that literally extends from cradle to grave and is the same system for everyone," coordinated by "a system of labor market boards at the local, state and federal levels" where curriculum and "job matching" will be handled by counselors "accessing the integrated computer-based program."

Education out, training for government jobs is in. Why blame the teachers?

Agenda 21 objectives are in your school promoting a global education for a new world order of global citizens through RACE TO THE TOP.

IB Education is run:

- Not by local school districts;
- Not by the State of Florida;
- Not by the U S of America;

But run by international agencies, in this case, run by the United Nations (UNESCO). Test are written internationally, scored and kept in an international data base. Teachers are trained internationally. Federal and State **Departments of Education DO NOT LOOK AT THE CONTENT OF MATERIAL GIVEN TO STUDENTS.** Why??????????

The USA Declaration of Independence says, "... all men are created equal and are endowed by their Creator with certain unalienable rights ..."

UDHR states: "These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations" [article 29, paragraph 3].

The RTTT International indoctrination school Curriculum IB and AICE follow the UN. The UN Earth Charter (NEVER RATIFIED BY CONGRESS) teaches:

1. The redistribution of wealth between nations and within nations [Art. 10.a.]
2. Same-sex marriage [Art. 12.a.]
- 3 Spiritual education [Art 14.d.] which means indoctrination in Pantheism and opposition to Christianity.
4. Military disarmament [Art. 16.d.&e.]
5. Creation of a powerful international agency to make the Earth Charter binding on all nations.

RTTT, Makes Truth Irrelevant: Agenda 21 Changes History and Science. i.e: US history starts in 1865. Founding Fathers, Bill of Rights, US Constitution are mentioned as a way to govern. Nationalism is discouraged.

Teresa Sweet, Chief of Florida Curriculum, thinks that History and Government are the same. **"American History will start at 1865. While the present United States History standards timeline does begin with the Reconstruction period, it might be helpful for you to know that the United States Government course does address the Founding Fathers, the founding period in United States History, and a study of the important documents of this period. This course is required instruction for high school students in Florida."**

Teresa Sweet, Chief, Bureau of Curriculum & Instruction

RTTT IBO/AICE promotes, "world citizenship." [http://www.ibo.org] Either United States citizenship or world citizenship must have priority in our education program. Which will it be? IBO/AICE gives priority to world citizenship.

America is in trouble as Ideology Clashes

Some demand our country follow the Founding Fathers, Constitution Individual Rights and Property and the Free Market.

Some are taught to give up FREEDOM and allow the Government to handle their lives.

Why do American Taxpayers continually spend trillions on failed policies, expecting different results? RTTT violates the US Education Code. TIME FOR A CHANGE!
