

The Role of the Environmental Left in Fishery Management

The Online Fisherman

What is the relationship between the environmental left (organizations like PEW, EDF, PEW, and many others) and the regulators controlling and shutting down our recreational and commercial fisheries?

NOAA

- Executive Director Jane Lubchenco
- “Rock Star” of the environmental left
- Prior executive (Six Figures) at EDF prior to position at NOAA
- Knew her future in the late 1970's.
- Important role as UN advisor
- Remains on board of many 501c3

The Magnuson Stevens

- One Law Governs All
- Defines who determines overfishing
- Allowed rampant infiltration of Commerce Department
- Re-written under Bush by PEW attorneys
- Directly in connection with Agenda 21
- No oversight, incredible opportunity and reality of corruption at many many levels

Fulfilling Customer Needs

- Describe the main attributes of the product
- Link the product attributes to customer needs

Cost Analysis

- Indicate the financial advantages for the customer
- Compare quality and price with those of the competition

Agenda 21 and the Councils

- Magnuson creates Fishery Management “Councils”
- Councils completely controlled by individuals with direct connections – current and past – with the environmental left.
- The GOMFMC has shut down grouper, the SAFMC red snapper.
- Goal of Agenda 21 is fleet reduction; The Councils are carrying it out.

What to do?

- Search for the term “Fishing Politics”
- Search for the term “Catch Shares”
- Search for Chapter 17 of Agenda 21
- Read this month's Saltwater Sportsman article by Rip Cunningham.
- Register on our web site.
- Tell your friends the story.
