

**Maurice Strong** former UN Secretary General –Oil Billionaire –stated: “*Land, because of its unique nature and the crucial role it plays in human settlements, cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principal instrument of accumulation and concentration of wealth and therefore contributes to social injustice; if unchecked, it may become a major obstacle in the planning and implementation of development schemes. Social justice, urban renewal and development, the provision of decent dwellings-and healthy conditions for the people can only be achieved if land is used in the interests of society as a whole.*”

The environmental movement has been described as the largest and most influential social phenomenon in modern history. From relative obscurity just a few decades ago it has spawned thousands of organizations and claims millions of committed activists. Reading the newspaper today it is hard to imagine a time when global warming, resource depletion, environmental catastrophes and 'saving the planet' were barely mentioned. They now rank among the top priorities on the social, political and economic global agenda.

Environmental awareness is considered to be the mark of any good honest decent citizen. Multi-national companies compete fiercely to promote their environmental credentials and 'out-green' each other. The threat of impending ecological disasters is uniting the world through a plethora of international treaties and conventions. But where did this phenomenon come from, how did it rise to such prominence, and more importantly, where is it going? Is it true? Most scientists think NO.....Not true. Is it just a plan to make money?

**Your life plan!** ...created by someone else.

## US Constitution and Bill of Rights

### Amendment V

“nor shall private property be taken for public use without compensation.

Man’s rights are inherent to his nature as man. As such they are unalienable.

**America Today:** You were born with rights, the government exists to protect them. You and the product of your labor belong to you.

### UN Declaration of Human Rights

Article 17 Sec 2:

Man’s rights are granted by other men; as such, they can be taken away by men.

**America Tomorrow:** Government grants, restricts or withdraws your rights according to its needs. You and the product of your labor belong to the community.

*“Effective execution of Agenda 21 will require a profound reorientation of all human society, unlike anything the world has ever experienced –a major shift in the priorities of both governments and individuals and an unprecedented redeployment of human and financial resources. This shift will demand that a concern for the environmental consequences of every human action be integrated into individual and collective decision-making at every level.”*

–signed by G.H. Bush, 1992

**Never ratified by the US Senate.**

## AGENDA 21 "New World Order" for America

### Agenda 21 Mission: Create Crisis

"The whole aim of practical politics is to keep the populace alarmed (and hence clamorous to be led to safety) by menacing it with an endless series of hobgoblins, all of them imaginary."— H.L. Mencken (1918).

### Find Someone to Blame:

"The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself." The First Global Revolution by Alexander King –Club of Rome

J. Gary Lawrence, 1998 UNEP Conference, UK  
*"Participating in a UN advocated planning process would very likely bring out many... who would actively work to defeat any elected official... undertaking Local Agenda 21/Sustainable Development. So we call our process something else such as "comprehensive planning," "growth management" or "smart growth."*

### USE WARM FUZZY WORDS:

Environment \* Economy \* Equity \* Consensus \* Affordable Housing \* Friends of... \* Action \* Protect \* Preserve \* Quality of Life \* Benefit of all \* Sanctuary \* Social/Environmental Justice \* Best Management Practices \* Watershed \* Facilitator \* Traffic Calming \* Outcome Base Education \* Endangered Species \* Invasive Species \* Restoration \* Public/Private Partnerships \* Common Good \* Regional \* Collaborative \* Inter-disciplinary \* Stakeholder \* International Baccalaureate \* School to work \* Historic Preservation \* Vision \* Sustainable Medicine.

Maurice Strong : "...current lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and work air conditioning, and suburban housing are not sustainable."

## Agenda 21 Objectives: POWER and CONTROL

Eliminate Unalienable Rights....  
Unalienable Rights are individual rights granted by God, and can never be taken away unless you live under government control in a sustainable development.

### SUSTAINABLE DEVELOPMENT

UN Definition as taken from the 1977 Soviet Communist Constitution...

"meeting today's needs without compromising future generations to meet their own needs."

Sounds great but it really means...

Sustainable Development is the strategy that seeks to transform America from the land of the FREE to the land of the collective. (everyone lives the same, makes the same money, works for the government and has every facet of their lives regulated by the government").

Agenda 21 uses the environment as 'bait' and works to indoctrinate and prepare your children to live under global rule while you pay the bill.

Use Government and (NGO) Non Government Agencies take over communities by starting locally. ICLEI is the favorite. ICLEI has a veritable treasure trove of boilerplate solutions for change agents, **enabling them to "identify" problems with the goal of implementing predetermined outcomes that advance Sustainable Development.**

## Agenda 21 Makes Truth Irrelevant: by Changing History and Science

### Create new Heroes –

Stalin – Killed 40 million  
Mao - Killed 60 million  
Che – International Hit Man/Revolution Organizer  
Soros – Destroyed economy of UK, now US

### The 4 E's of Sustainable Development

- **Education**
  - Dumb down the kids. Make them drones. Teach concept not facts, commonsense or logic. Demonize Founders, constitution and God.
- **Equity**
  - International redistribution of US's wealth.
  - Create Class Warfare
  - Promote Racism to divide & conquer
  - Depopulate Earth/Eliminate the weak
  - Control the media/dictate agenda
- **Economy** - The international redistribution of America's wealth.
  - Replacement of free enterprise with public/private partnerships
  - Regulate industries out of business
  - Unfair Trade Agreements against US
  - Overload entitlements
  - Eliminate National Borders
  - Lax Wall Street Regulations
  - Print Money/De-value the dollar
  - Massive Debt
  - Wipe out individual savings
- **Environment** - Nature before man
  - Climategate - War on CO2
  - Demonize energy consumption
  - Artificially cause food shortages
  - Determine that over 50% of the U.S. is not habitable
  - Use Zoning to seize private land

There are hundreds of Agencies in America today pushing Agenda 21. Become educated, hold elected officials accountable, defund these agencies and share this information.
