

Operation Paul Revere

Dear Patriots

We, the People, are called to ACTION to declare our independence from tyranny and to preserve the Constitution of the United States of America.

It has come to our attention:

The Florida Department of Education is rewriting the Florida Principal Leadership Standards. What are they putting into the new revision? Teachers now are required to teach social justice in the classroom. Social justice supports equality and solidarity in a society. In their own words, please read the draft at the bottom of their web site

So we are all on the same page, Social justice is based on the concepts of human rights and equality and involves a greater degree of economic affairs in which equality of outcome, all people having the same wealth, has been manufactured for all the participants of a society. It is a founding principle of various forms of socialism, communism and cooperative economic organization, through progressive taxation, income redistribution or even property redistribution.

Notice there is no place in this document that requires a student to know how to read, write, do math, science, learn American history learn about America's greatness, Bill of Rights or Constitution.

We suggest that you make a flyer out of the following information and give it to every homeowner in your community, the media, your Governor, Local, State and Federal Legislator, Dept of Education and School Board.

To all Florida Home Owners:

According to the FLDOE, The Florida Department of Education is rewriting the Florida Principal Leadership Standards. Teachers now are required to teach social justice in the classroom. Social justice supports equality and solidarity in a society. (All wealth must be equally distributed.)

It is very important you understand how social justice is implemented in a society. It works like this:

Since all future Floridians will now be operating under the new social justice system, you have been voluntarily mandated to participate in the Social Justice program.

Your Government has determined you have accumulated more wealth than your neighbors, that is not acceptable as the requirement of social justice demands wealth must be shared. You will be required to share your wealth to make room for other less fortunate families.

In preparation of implementing Social Justice, you will now be required to register all bedrooms in your home.

Your child will also register this information on the National Data Base required in the Race to the Top program.

This information will be stored on the National Data Base program and will be shared with all government agencies in order to monitor your compliance with the program.

Your family can occupy 1 bedrooms. Each of the other bedrooms will be assigned to another family.

This program is open to all residents of Florida, legal or illegal, working or not. You will be required to clothe, feed, educate, provide shelter, transportation and medical attention to all people living in your home.

Your family can only have 1 car. You will be required to redistribute all other cars to those living in your home.

You will register your income so it can be divided equally among those living in your home.

Under NO circumstances will those living in your home be required to pay or assist in any services required for the upkeep of your home. They are not obligated to you for any reason, it is just your obligation to pay for them since you and accumulated too much wealth and wealth must be shared equally.

Once the registration is complete, you will transfer ownership of your home to the state. Private property is not acceptable under a social justice program. Do not worry your child will be able to complete this registration in the national data base required in Race to the Top.

If you need any references as to how this program works we refer you to those models of implementation of Social Justice in Cuba, Argentina, Venezuela, Hitler's Germany, Stalin's Russia, Hungary and Poland.

If you feel that you have been selected unfairly, then contact the FLDOE and tell them that you live in the Constitutional Republic of America not the Communist Republic of America. Demand that communist/socialist programs be removed from the schools. Demand that the Bill of Rights American exceptionalism, nationalism, history, civics, economics be returned to the Florida curriculum. Teaching social justice is un American.
