Funny thing about the entire Wikipedia article – it neglects to mention that the Progressive Caucus WAS CREATED BY THE **DEMOCRATIC SOCIALISTS OF AMERICA!**

Here, [Henry Lamb does an excellent job of boiling down for everyone exactly what the Progressive Caucus and their creators, the Democratic Socialists of America, believe:](#)

The Democratic Socialists of America (DSA) is the largest socialist organization in the United States, and *the principal U.S. affiliate of the Socialist International*. DSAs members are building progressive movements for social change while *establishing an openly socialist presence in American communities and politics* .

At the root of our socialism is a profound commitment to democracy, as means and end. We are activists committed not only to extending political democracy but to *demanding democratic empowerment in the economy* , in gender relations, and in culture.

Democracy is not simply one of our political values but *our means of restructuring society*. Our vision is of a society in which people have a real voice in the choices and relationships that affect the entirety of our lives. *We call this vision democratic socialism* - a vision of a more free, democratic and humane society.

We are socialists because *we reject an international economic order sustained by private profit*, alienated labor, race and gender discrimination, *environmental destruction*, and brutality and violence in defense of the status quo. We are socialists because *we share a vision of a humane international social order* based both on democratic planning and market mechanisms to achieve *equitable distribution of resources*, meaningful work, a healthy environment, sustainable growth, gender and racial equality, and non-oppressive relationships.â€œ□

The Democratic Socialists of America HAVE TAKEN OVER THE CORE OF THE DEMOCRATIC PARTY and their beliefs align EXACTLY with the UN Agenda 21 plan to destroy our property rights, our sovereignty, our freedoms and our prosperity.

Why is America blindly returning these TRAITORS to our House of Representatives?

It's not like they are not right out there in the open in their SOCIALISM. You will notice

that most if not all of the socialists in Congress are from a LARGE CITY. Perhaps it is time for America to consider the cities of our country as the enemies of our freedoms. These socialist scumbags have created the perfect dependent voting populace in our major cities that keep them in power and allow them to dismantle our Constitution. Please read more at [Sovereignty.net on Socialism in America](#) – at the bottom is a list of organizations that are also in bed with SOCIALISTS in America. Learn the names of these people and these groups and alert everyone you know about their true underlying agenda. The very heart of America depends upon us all becoming aware of this very real THREAT.
