

Can YOU Personally Change the Direction of This Country?

By Paul McKain

CLEAR (Consolidated Land, Energy and Aquatic Resources) Act

H.R. 3534

Law of the Sea Treaty

Compiled by Paul McKain

CLEAR Act / Executive Order

1. All of our oceans, streams and Great Lakes
2. All air space above them and minerals below them (oil, gas...)
3. All life in these waterways and all adjacent land masses

NO LONGER COME UNDER JURISDICTION OF THE UNITED STATES. THEY WILL COME UNDER JURISDICTION OF THE UNITED NATIONS.

Piecing the Puzzle Together

- **9/8/2009**—CLEAR Act (H.R. 3534) introduced to U.S. House of Representatives

Piecing the Puzzle Together

9/10/2009–Interim
Report introduced to the
president - **2 days later!**

Piecing the Puzzle Together

- **4/20/2010** - British Petroleum's oil rig the Deepwater Horizon had an accidental, catastrophic oil spill.

Piecing the Puzzle Together

- **7/19/2010** –Obama implements an Executive Order **BECAUSE** of the B.P. oil spill.
- E.O. mimics the Interim Report Obama has had in his possession for 7 months!

Piecing the Puzzle Together

- **7/30/2010**—CLEAR Act passes U.S. House – It is sent to the Democrat dominated U.S. Senate to be rubber stamped and sent to the President.
- **11 days later!**

Timing is Everything

- 9/8/2009–CLEAR Act introduced to U.S. House of Representatives
- 9/10/2009–Interim Report introduced to the president – **2 days later!**
- 4/20/2010 – B.P. Deepwater Horizon accidental oil spill – **7 months later!**
- 7/19/2010–Executive Order implemented- **3 months later!**
- 7/30/2010–CLEAR Act passes U.S. House – **11 days later!**
- CLEAR Act **waiting for Senate to reconvene** for vote

Clear ACT H.R. 3534/S.R. 5626

1. **Creates the Regional Outer Continental Shelf Council**
 - a. coordinate sitting and development of energy resources
 - b. prepare OCS strategies – very vague statement!

Executive Order- Creates the National Ocean Council

Referring to the Interim Report:

- Tier 1 – page 19 – **The National Ocean Council has OVERALL responsibility for implementation of the National Policy.**
- Tier 2 – page 19 – (1) **ensure execution of National Policy objectives and (2) transmit Administration objectives.**
- **Gives overall control of all other councils to the National Ocean Council.**

H.R. 3524 - Bring it together

1. CLEAR Act – section 106 – (e) References –relating to the Service in statues **Executive Orders, rules, regulations, directives, or delegations of authority that precede the effective date of this act are deemed to refer as appropriate to the Department, to its officers, employees, or agents, or to its corresponding organizational units or functions.**
2. Obama's Executive Order preceded the date of the House passage and pending Senatorial vote making it **appropriate.**

Bring it together

The CLEAR Act develops the Outer Continental Shelf Council but the previous Executive Order states that the **National Ocean Council** takes precedence over National Policy, making the **OCSC** null and void. **NOC directives take precedence over all other councils.**

Bring it together

1. By voting to accept the CLEAR Act – you establish the Regional Outer Continental Shelf Council but hidden in this is the National Ocean Council established by previous Executive Order.
2. The NOC is prominent and calls for accession in the Law of the Sea Treaty
3. By “soft legislation” the treaty could be thrust upon the American People without 2/3 vote of the Senate, in direct violation of the Constitution.

Decisions concerning our oceans...will be guided by the precautionary approach as reflected in the Rio Declaration of 1992 – stating that where there are threats of damage, lack of full scientific knowledge will not be used to postpone cost-effective measures...

This is United Nations Agenda 21

Presidents Clinton, Bush, and Senators Obama, Hilary Clinton and Biden were always in favor of the International Agenda dictated by United Nations Agenda 21.

IN CONCLUSION

- Brazil – 10 Billion Dollars
- Cuba – Brazil, China, Pakistan, Venezuela, Russia
- Columbia – 2 Billion Dollars
- Alaska – 4.2 Billion Dollars
