

# Get our County out of NACo and FAC

Letter to the Editor:

Did you know that our Board of County Commissioners is spending your tax dollars to belong to an organization called National Association of Counties (NACo) and its sister organization Florida Association of Counties (FAC)? Why is this important? Well, NACo has direct ties to the United Nations Sustainable Living plan called Agenda 21.

Agenda 21 is a socialist program which defines itself as the New World Order comprehensive plan of action to be taken globally, nationally, and locally by organizations of the United Nations systems.

Agenda 21 advocates an end to national sovereignty, abolition of private property, restructure of the family unit, increasing limitations/restrictions on mobility and individual opportunities, and abandonment of the Constitutional protection of our unalienable rights as described in the Declaration of Independence.

Agenda 21 is a program introduced in 1992 in Rio DeJaniro, Brazil, and signed by President George Bush Senior. The program was implemented in 1993 by President Clinton's Executive Order 12582. In 2002, ten years later a summit was held in Johannesburg to evaluate the progress of Agenda 21. On page 108 of the Johannesburg Summit Document, NACo is listed as being the second most important organization for implementing Agenda 21.

Following are several reasons we should demand that our county drop membership in NACo and FAC:

- 1) NACo cooperates with the United Nations through the Council of Environmental Initiatives (ICLEI).
- 2) NACo promotes Agenda 21 principles and has paid lobbyist to promote Agenda 21.
- 3) NACo and FAC are involved with the National Resource Conservation Service (NRCS), which takes away private property rights.
- 4) NACo promotes spending your tax dollars through grants on Agenda 21 principles.
- 5) NACo continues paying lobbyists to promote spending your tax dollars.
- 6) NACo lobbied for White House Rural Council E.O. 13575, an Agenda 21 program.
- 7) NACo and FAC are involved with the North Florida Regional Planning Council, which works with ICLEI in sustainable development.
- 8) NACo promoted passage of the Law of the Sea Treaties which gives the U.N. control of our coastal waters and fisheries.
- 9) NACo receives our county tax dollars and then hires lobbyists to promote the spending more of our tax dollars. As you can see, we get a double dose of waste.

Do you want these organizations to be wasting your tax dollars on plans which will take away your individual property rights?

Karen Schoen, Shady Grove
