Dear Patriot,

Contrary to what you have been led to believe all of your life, the United Nations is not a benign international group whose goal to maintain world peace. This image is a façade that masks their true agenda, an agenda that they were bold enough to put into writing 20 years ago as a 40-chapter horror story blatantly entitled Agenda 21: The United Nations' Programme of Action from Rio. This “programme” is a communist one, wherein there will be no private property, no individual rights, including no freedom to travel; there will be population reduction of the world, from over 7 billion to 500 million, and this population will be relocated to “human settlements” to live in stacked housing which sits on top of their place of employment. This may sound like some bad science fiction movie. It is not. It is real and it is happening NOW! How could the United Nations achieve such an evil goal? By going around elected officials, it has used its many levels of favors to bring in NGO's (Non Governmental Agencies), such as the EPA, to enforce draconian regulations at the local level in the name of “saving the planet.”

The United Nations, through the enactment of Agenda 21, has become firmly entrenched in every state and in every county in the United States. Florida is one of the most heavily invaded. Our legislators have not been paying attention. The purpose of the “Freedom from the U.N Rally” is to get their attention. We all know what gets politicians attention - massive numbers of voters speaking as one voice on an issue. Legislation to remove UN Agenda 21 from Florida will be introduced during the next legislative session. Unless we let our legislators know that we, the citizens of the state of Florida, want this legislation passed, it will disappear, never to be seen again. October 20 at the Old Capitol is our one and only chance to let them know that we demand that this legislation be passed and that we will not accept less. It is imperative that we have huge numbers on that lawn that day. Please, pass the word to everyone that you know who loves liberty, “Meet me on the lawn on October 20!”

Please see the attached flyer for rally details. Contact Bob Root for names of bus lines if you are interested in bringing a large group with you. Also, Bob needs a note from you stating that your group supports this event so that these notes of support can be shown to the legislators when we lobby them to vote for the bill to remove UN Agenda 21 from the state of Florida. Email Bob at taylorparty@hotmail.com

God bless you and God bless America.
